AUTHOR	Lovell, Susan, Ed.
TITLE	The College Cost Book, 1982-83. Third Edition.
INSTITUTION	College Entrance Examination Board, New York, N.Y. Coll. Scholarship Service.
REPORT NO	ISBN-0-87447-147-8
PUB DATE	82
NOTE	277p.
AVAILABLE FROM	College Board Publications, Box 886, New York, NY 10101 ($9.95).
EDRS PRICE	MF01 Plus Postage. PC Not Available from EDRS.
DESCRIPTORS	*Eligibility; Family Income; *Federal Aid; Higher Education; *Need Analysis (Student Financial Aid); Noninstructional Student Costs; *Parent Financial Contribution; Private Financial Support; School Surveys; State Aid; *Student Costs; *Student Financial Aid; Student Loan Programs; Tuition
IDENTIFIERS	Bureau of Indian Affairs; *College Costs; College Work Study Program; Guaranteed Student Loan Program; National Direct Student Loan Program; Pell Grant Program; Reserve Officers Training Corps; Supplemental Educational Opportunity Grants

ABSTRACT

Expenses at 3,200 schools and colleges are identified, and information is presented on applying for student financial aid and on estimating financial need. Recent changes in federal aid programs, eligibility requirements, and major programs are also outlined. In considering the cost of college, the following areas need to be addressed: tuition and fees, books and supplies, room and board, personal expenses, transportation, and a total expense budget. The following financial aid sources are examined: Pell Grants, Supplemental Educational Opportunity Grants, National Direct Student Loans, College Work-Study Program, service academies, Reserve Officer Training Corps, Bureau of Indian Affairs, state government programs, financial aid from colleges, the Guaranteed Student Loan Program, veterans' education benefits, vocational rehabilitation benefits, and help from private student aid sources. In calculating how much the individual's contribution should be in paying for college costs, consideration is given to the family's income and assets and the student's ability to pay, with a special note on independent or self-supporting students. Additional topics include the following: strategies for stretching one's resources, reducing the time involved in earning a degree, reducing indirect costs, prepayment plans, and strategies for working one's way through college, understanding financial aid awards, responsible borrowing, and student rights and responsibilities. Appended materials include: student expenses by institution, a glossary, worksheets and tables, sources of information about state grant programs and the Guaranteed Student Loan Program, and institutions listed alphabetically. The College Cost Book 1982-83

Third Edition

College Scholarship Service

College Entrance Examination Board
New York, 1982

The College Scholarship Service (css) is an activity of the College Board concerned with improving equal educational opportunity. The css through the determination of financial need assists in the equitable distribution of financial assistance to students. Its services are offered to students and their parents, to secondary schools, to noncollegiate sponsors of financial aid programs, and to all institutions of postsecondary education.

The College Board is a nonprofit membership organization that provides tests and other educational services for students, schools, and colleges. The membership is composed of more than 2,500 colleges, schools, school systems, and education associations.

Copies of this book may be ordered from your local bookseller or from College Board Publication Orders, Box 886, New York, New York 10101. The price is $9.95.

Editorial inquiries regarding this book should be addressed to the College Scholarship Service, The College Board, 888 Seventh Avenue, New York, New York 10106.

Preface

Although college costs haven't increased as fast as the Consumer Price Index (see Glossary) over the past decade, the pressures on colleges to accelerate the rate of increase is becoming severe. Fueled by inflation and by federal cutbacks in student financial aid programs, college costs for 1982-83 have increased, on the average, about 11 percent since 1981-82. A comparable, if not greater, increase is likely in 1983-84 for many colleges.

You may have assumed that education or training after high school is now beyond your family's reach. *That's probably not true.*

You may have assumed that there's nothing you can do to help yourself or to improve your chances of getting the outside help you need. *That's definitely not true.*

This book is designed to help students and their families meet college costs. If you've worried about your family's ability to pay future educational expenses and don't know how you're going to manage it, early planning *can* help.

The *purpose* of planning ahead is twofold:

1. To get the most mileage out of your own resources, and

2. To improve your chances of getting any extra outside help you think you'll need.

Planning ahead to meet college costs involves several different kinds of activities. This book will:

- Show you how to estimate the full costs of attending the colleges you're considering;
- Teach you how to analyze your family's ability to contribute to educational expenses and to estimate your probable need and eligibility for student aid;
- Explain to you the various types and sources of financial aid and what you need to do to apply;
- Tell you about how some students and families stretch their resources and cut the costs of education;
- Describe how you, the student, can manage your money more effectively in order to live on a limited budget; and
- Help you to develop a personal financing plan and timetable for putting together the resources you'll need.

The money that you and your family pay toward college costs may well represent the single biggest financial investment you make in your lifetime (next to buying a home, perhaps). You owe it to yourself to investigate all of your options beforehand, and then to manage that investment as carefully as you would any other.

The author gratefully acknowledges the contributions of the many individuals who participated in the project. *The College Cost Book* was edited by Susan Lovell. Data in the student expenses appendix were compiled by the editorial staff of data-based publications. Statistical analyses of the data were performed by Sheila Kokidko, Maureen Matheson, and Brooke Breslow with programming developed by Edmund C. Jacobson. Bill Hamilton and Barbara Nadasi assisted in research. The author also acknowledges the groundwork laid in previous editions of this book by Joe Paul Case, Dean of Financial Aid at Amherst College.

Kathleen Brouder
Associate Director
College Scholarship Service

1. HOW MUCH DOES COLLEGE COST?

Some of the best things in life may be free, but unfortunately college isn't one of them.

Sometimes people are surprised to discover that the price tag for a college education is actually quite a bit lower than the actual cost of a college education.

The fact is that only a few colleges charge students and their families the *full* costs of providing educational services. Public colleges and universities receive hefty operating subsidies from state and local tax revenues. Most independent or private colleges and universities meet at least some of their operating expenses through endowments, contributions from graduates, and government or foundation grants. Virtually all invest money and use the return to subsidize their activities. And the in-flow of federal and state student and institutional aid has become an increasingly important part of institutional budgets.

Appendix 1 of this book lists average student expense budgets at over 3,200 postsecondary educational institutions. A *student expense budget* is an all-inclusive summary of direct educational and living expenses, and typically consists of five parts:

- tuition and fees
- books and supplies
- room and board
- personal expenses
- transportation

Many students have additional expenses not covered under one of these categories, such as expenses arising from medical care or a handicap. These extra expenses are factors that you should consider in estimating the cost of colleges you're considering.

Tuition and fees

Tuition is the charge for instruction. Fees may be charged for such services as the library, student activities, or the health center. The amount of tuition and fees charged by a particular college depends on a variety of factors, but the most significant is what kind of college it is.

Because they receive funds from tax revenues, tuition and fees at public institutions are generally the lowest, particularly for legal residents of the state or district in which they are located. Most two- and four-year public colleges charge higher tuition for nonresidents, however. This "out-of-state" tuition (or "out-of-district" tuition in the case of two-year community colleges) can make the cost of attending a public institution as high as the cost of attending many private institutions.

Tuition at private colleges is usually considerably higher than at public institutions, because they charge a larger percentage of the real costs.

Tuition at proprietary or profitmaking institutions (such as many trade and technical schools) is usually set at a level to recover all of their operating costs.

Books and supplies

Every college student has to buy books, pencils, paper, and other supplies. The amount you spend for books and supplies will vary only slightly by type of institution but is generally related to the curriculum or courses you select. In some academic fields, for instance, students may have to spend a good deal more than the averages cited in this book. Art students, for example, may need more extensive supplies like canvasses, paints, brushes, and clay. Engineering students may need calculators or slide rules. Computer science students may need to buy computer time. And in some programs, the textbooks are more expensive simply because of the "information explosion" that causes rapid changes in the field.

Room and board

"Room and board" means basic living expenses for food and housing. Regardless of the kind of institution you choose, you will have to consider these expenses.

You may choose to live in a dormitory on campus or in other college-operated housing located near campus (such as college-owned apartments). Or you may live in privately owned housing, such as an apartment or rooming house near the campus. At many large colleges and universities where on-campus housing is limited, students frequently live in dormitories for the first year or two, and subsequently shift to off-campus private housing. Students who live in either college-operated or private housing away from their families are called "resident students" (not to be confused with the term "legal resident" used in the discussion of tuition and fees).

"Commuter students" are students who live at home with their families. Although some private two-year junior colleges have college-operated housing available, the vast majority of community colleges do not.

These terms can be confusing. The "resident" student who pays rent to live in privately owned housing away from campus has to commute to classes, of course. But for financial aid purposes, student expense budgets are usually based on this distinction:

If you live in college-operated housing, on or off campus, *or* if you live in privately owned housing off campus but not with your family, you are considered a *resident* student.

If you live at home with your family, you are considered a *commuter* student.

Colleges with their own housing typically charge resident students on a nine-month basis for room rental and most meals, excluding holiday and vacation periods. The room and board charge is built into the student expense budget. Colleges also expect that students who live in privately owned off-campus housing have a similar level of expense (although this is sometimes estimated to somewhat higher or lower than the college's own room and board costs, depending on the local housing market).

Commuter students, on the other hand, are generally assumed to have somewhat lower expenses than resident students because they do not have to pay for housing. However, families should remember that they will still need to buy food for the student and pay for other normal living expenses. For example, classes may start early in the morning and go on until late at night. Thus commuter students may have to buy at least one meal a day, and will often spend additional amounts on snacks in the student union or nearby coffee shops. Therefore, the estimated cost of food and other expenses at home is usually built into commuter student expense budgets for financial aid purposes. You should take these costs into account in your planning.

Personal expenses

No matter what kind of institution you attend, you will incur some personal expenses for such things as clothing, laundry, toiletries, recreation, medical insurance and care, and perhaps incidental furnishings for dormitory rooms. This is certainly an area in which you can economize, but colleges usually estimate that both resident and commuter students will spend at least $500 or more for these items.

Transportation

All students must spend some money for travel. Resident students who live on or near campus during the academic year must travel to get there at the start of the year and return home at the end of the year, and most also go home at least once during the year. If you plan to live at college, but expect to travel home frequently, your transportation costs may be considerably higher than average. Estimated travel costs should be included in your planning, just as they will be by the college in building its student expense budget.

Commuter students who travel daily to and from campus also have travel expenses, whether they use public transportation or a private car. The costs of gasoline and daily parking, particularly in some cities, can mount up quickly, so you should estimate carefully. These costs, too, are built into student expense budgets by colleges.

Total expense budget

The total expense budget for a particular college is determined by adding up these five categories of expenses. The tables in the worksheet section of this book show the average total expenses for resident and commuter students estimated for the 1982-83 academic year by the colleges and universities listed in Appendix

1. For your own estimate, remember to consider any additional costs resulting from medical bills or other extraordinary personal expenses.

You will see that the total budgets at public colleges are lower than those at private colleges because their tuition and fees tend to be lower for the reasons previously discussed. There is not a lot of difference in the other costs, however.

So don't rule out a private college or university because of its higher tuition. Private institutions often have more financial aid resources that can help you make up the difference between costs and what your family can afford to pay. Remember, the greater the overall expense, the greater is the possibility of your demonstrating need for financial aid.

Questions and answers about college costs

Q All of these costs look greater than anything we can afford. How can we possibly manage to pay for all the expenses of going to college?

A First, you may be eligible for some financial aid to help you meet part of the costs. Chapter 2 explains that what *you* pay for college is not necessarily what the price tag says. Second, you may want to look at Chapter 5, which gives some hints on both cutting your costs and stretching your resources. But be prepared to contribute *something*. In very rare cases, parents are judged to be too poor to contribute anything toward the costs, but even then the student himself or herself would be expected to contribute something out of summer job earnings. Third, remember that you and your family are already paying many of these expenses right now—like your food, clothing, and personal expenses. That's not to say that your expenses as a member of the household aren't putting a strain on your household budget; they may well be. But if you can manage it now, ask yourself seriously if your family can't manage it for another two or four years.

Q With college costs so high, as well as the rising cost of living in general, shouldn't I just be looking for the cheapest alternative?

A Not necessarily! Higher cost colleges often have more financial aid available to help families bridge the gap between the costs and what they can afford to pay, as Chapter 2 explains.

Q How do I know that the costs at a particular college won't just keep going up and up during the years I'm enrolled?

A You don't. In fact, they probably *will* continue to rise. Most families' income will probably continue to rise, too, though. Whether your family's ability to pay will increase at the same rate as the costs at a particular college depends on a lot of factors, including the overall state of the economy. (A few colleges now offer families the opportunity to pay tuition charges for four years in advance, with the guarantee that they will be protected against future increases. If your cash flow permits you to make that kind of up-front commitment, you might want to ask the colleges you're considering whether they offer such a plan.)

Sample students

Meet our three "sample students"—Andrea, Beth, and Carlos—whose family backgrounds, financial situations, and educational goals have been made up from many of the characteristics of students who are facing the choice of a college education and how to pay for it. Following them through the process of determining financial need and applying for aid may help you develop your own financing strategy.

All three begin their planning to meet college costs by estimating their probable expenses at the colleges that interest them.

Your family can begin to make its own plans by filling in Worksheet 1 (page 51) for the colleges you're considering. You can use the information in Appendix 1 of this book to estimate costs, but *remember* that these costs are for the *1982-83 academic year*. If you will be starting college in September 1983, you should raise the figures in this book by at least 10% (some colleges will have a greater increase, others a smaller one). When you are actually applying for aid, the college catalog or financial aid bulletins of the colleges to which you are applying are the most authoritative sources of information about costs that will apply to you.

Worksheet 1: Estimating student expenses

	Andrea
1. Tuition and fees	$ 595
2. Books and supplies	265
3. Student's room	Not applicable
4. Student's board/meals*	1,250
5. Personal (clothing, laundry, recreation, medical)	650
6. Transportation**	620
7. Other (such as costs of child care, extra expenses because of handicap)	0
A. Total budget (Add 1-7)	$3,380

*You will want to consider these expenses to your family if you live at home.

** If you are planning to live on campus, estimate the costs of the round trips you will have to make to your home. Colleges usually estimate a students makes two or three round trips during the year. Students living at home should figure the costs of daily transportation to the college.

Andrea Daley, *age 18, will graduate from high school in June 1983. She plans to live with her family and attend a nearby community college to pursue an Associate of Arts degree in chemistry. She hopes to transfer to a four-year college of engineering when she completes her AA and hopes eventually to become a chemical engineer.*

	Beth
1. Tuition and fees	$ 980
2. Books and supplies	280
3. Student's room	1,045
4. Student's board/meals*	1,045
5. Personal (clothing, laundry, recreation, medical)	710
6. Transportation**	350
7. Other (such as costs of child care, extra expenses because of handicap)	0
A. Total budget (Add 1-7)	$4,410

*You will want to consider these expenses to your family if you live at home.

** If you are planning to live on campus, estimate the costs of the round trips you will have to make to your home. Colleges usually estimate a students makes two or three round trips during the year. Students living at home should figure the costs of daily transportation to the college.

Beth Edwards *is 17, and will graduate from high school in June 1983. She hopes to attend the state university to study journalism and plans to live on campus.*

	Carlos
1. Tuition and fees	$3,850
2. Books and supplies	295
3. Student's room	1,100
4. Student's board/meals*	1,100
5. Personal (clothing, laundry, recreation, medical)	605
6. Transportation**	350
7. Other (such as costs of child care, extra expenses because of handicap)	0
A. Total budget (Add 1-7)	$7,300

*You will want to consider these expenses to your family if you live at home.

** If you are planning to live on campus, estimate the costs of the round trips you will have to make to your home. Colleges usually estimate a students makes two or three round trips during the year. Students living at home should figure the costs of daily transportation to the college.

***Carlos Fernandez** is 18, and will graduate from high school in June 1983. He hopes to attend a private college in another state to pursue premedical studies; he plans to live on campus.*

2. HOW MUCH WILL YOU PAY FOR COLLEGE?

You should regard your family as the first—and probably the primary—source of funds for education. Virtually all colleges, government agencies, and private student aid programs expect a family to pay something toward college costs, according to their ability.

But financial aid often makes up the difference between the costs and what a family can afford to pay. You should understand, though, that financial aid is a *supplement* to a family's resources, not a substitute for them.

You don't have to be poor to receive financial aid, but you *do* have to prove you need it. And you may need it if the costs of attending a particular college exceed the amount you are able to pay.

College costs (direct educational expenses + living expense) − **What a family can afford to pay toward college costs** = **Demonstrated financial need**

Estimating how much a particular family can reasonably be expected to pay toward educational expenses is a major part of the financial aid process. To help them evaluate a family's financial strength, most college financial aid administrators and aid sponsors use a set of formulas called the "uniform methodology."

In evaluating your family's ability to pay toward college costs, a variety of factors will be taken into consideration, such as your family's income, assets, expenses, and size. Here's how it works.

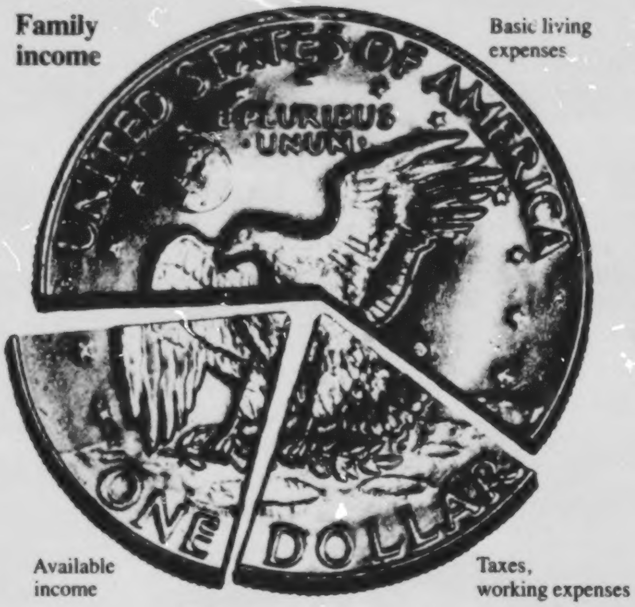
Evaluating a family's income

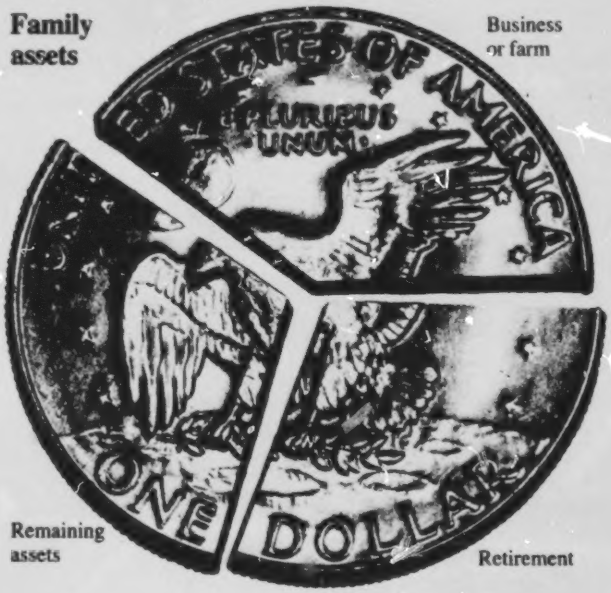
A family's total income for the previous calendar year is added up. Parents' wages and all other income (such as dividends, social security, or welfare benefits) is included.

But of course all of the parents' income can't be used to pay for college. For most families, the largest part of the parents' annual income must be used to provide for the family's basic expenses. The biggest expense for any family unit is the cost of basic necessities like housing, food, clothing, and so forth.

In evaluating a particular family's financial strength, aid administrators also take into account other demands on the parents' income such as taxes and unusually large medical or dental bills. Even the costs of working are taken into consideration—clothing, transportation to and from the job, meals away from home, and so forth. Some colleges also take into consideration a portion of elementary and secondary school tuition paid out for other children, as well as high medical costs.

After all of these typical family expenses are taken into consideration, the amount remaining to a family for other uses is quite a bit smaller than its original income. This remaining amount is called "available income." A family would be expected to use some of this remaining income to help pay college costs, and the





more "available income" a family has, the more would be expected of them.

Evaluating a family's assets

A family's assets are considered, too, because a family with assets is in a stronger financial position than a family with similar income but no assets. All of the assets are added up—equity in a home or other real estate, the value of a business or farm, cash, savings and checking accounts, stocks and bonds, and so forth.

But in the same way that a family can't be expected to spend all its income on education, a family isn't expected to use up all its assets to pay for college either. Parents are permitted to "protect" a portion of their assets as a reserve for retirement. The amount parents are allowed to protect gets larger as the age of the primary wage earner increases, because an older worker has fewer years to save for retirement than a younger worker.

A family could also protect a substantial portion of assets tied up in a business or farm, since a business or farm is also a source of income. If it was all used up to pay for college, there'd be nothing left to generate income in the future.

Even when the various allowances are subtracted from total assets, a family is not expected to convert all of its remaining assets into cash for college—only a portion called "income supplement from assets."

Available income (the discretionary part of a family's annual income) is added to the income supplement from assets to get a dollar amount called "adjusted available income." Not all the adjusted available income is tapped for educational expenses, only a percentage. But a family with a higher adjusted available income is expected to pay a greater share of college costs than is a family with a lower adjusted available income.

If more than one family member is attending college at the same time, the amount parents are expected to pay is divided by the number attending, in order to find the expected contribution per student. (This means that sometimes a family is not eligible for aid when the first child goes to college, but becomes eligible in subsequent years when a younger brother or sister starts college.)

Evaluating a student's ability to pay

A student is usually expected to contribute toward college expenses, too, from savings and summer earnings. Colleges usually expect a student to contribute at least $700 a year from summer job earnings, as well as a large portion of any savings or other assets they may have.

Comparing a family's ability to pay and college costs

Remember that

College costs (direct educational expenses + living expense) − **What a family can afford to pay toward college costs** = **Demonstrated financial need**

Suppose that your family can afford to contribute $1,100 toward college costs. Your demonstrated financial need would be quite different at different colleges depending on the total costs.

College X costs	$3,400
− Your family share	1,100
= Your need	$2,300

College Y costs	$7,200
− Your family share	1,100
= Your need	$6,100

You are usually eligible for financial aid equal to the amount of your demonstrated financial need.

Whether you are able to obtain all of the financial aid you're eligible for depends on a variety of factors, such as the availability of funds in any given year. If the federal government enacts proposed changes in student aid funding, many students will have a harder time getting all of the aid they need to meet college costs. However, colleges will do their best to help qualified students meet the costs of attendance.

The table on page 9 shows how college freshmen in 1981-82 met college costs.

Special note on independent or self-supporting students

The preceding discussion has focused on students who are dependent on their parents for financial support. If you are truly financially independent of your parents, you are called an "independent" or "self-supporting" student. This does not mean that your resources are always sufficient to pay your direct educational costs as well as living expenses (for yourself and your family). What it *does* mean is that, in considering your need for financial aid, colleges and other aid providers assume that your parents will not provide you with any support. (Some colleges will expect the parents to supply *information*, however, regardless of the student's dependency status.)

The ability of self-supporting students to contribute toward college costs is assessed on the basis of their income, assets, and expenses. Their expenses are typically higher than a dependent student's, because they must provide for their own maintenance and living expenses year-round (and not just for nine months, as was reflected in the student budgets in Chapter 1). They may also have extra expenses, such as child care. These extra expenses may be considered in the student expense budgets developed by colleges and universities for self-supporting students for the 12-month period. Because their expenses are usually higher than dependent students' expenses, self-supporting students can often contribute less to their education, and thus have a greater financial need.

One of the problems is defining specific criteria for who should be considered self-supporting and who should not. There are certainly many students who really are self-supporting. They may be young students who no longer enjoy the financial support of their parents, or they may be older students who have families

Average resource per student

Resources	*Percentage of students having resource*	*Average resource per student*	*Of total resources available, percentage from each resource*
Total resources	100%	$2,851	100%
Parents' assistance	69	901	32
Pell (Basic) Grant	26	230	8

of their own and can't reasonably call upon their own parents for help in meeting college costs. The problem is that some families have, in the past, deliberately "emancipated" their children in order to make them appear self-supporting, in hopes of avoiding the contribution of resources to their children's education.

As a consequence of the ongoing debate over how to define self-supporting status, it is not clear as this book goes to press how independence will be defined in the 1983-84 academic year. There is general agreement that the following factors should be used, in some combination, to define self-supporting status: the student's age, the length of time away from the parents' home, the student's status as a dependent for tax purposes, and the amount of support (either outright cash or "in kind" support provided by the parents to the student). Precisely how these criteria will be formulated is not clear, although they will probably be made somewhat more restrictive than the current definition.

If you have lived away from your parents' home for *at least* a year, have not been listed by your parents as a federal income tax exemption on their tax return since 1981, and have not received more than $750 a year in cash or in-kind support from your parents since 1981, it is *possible* that you will be considered a self-supporting student under the rules now being developed. Contact the financial aid offices at the colleges from which you are seeking aid if you think you may qualify and wish further information.

Questions and answers about a family's ability to pay

Q My parents have scrimped and saved for my college education, but because we have savings, we won't have as much eligibility for financial aid. Aren't we being penalized for being thrifty?

A No. You and your parents *will* be expected to contribute something toward the cost of college from the money you've saved, but remember that the system takes into account your parents' ages and corresponding need to save for retirement. But remember that a student whose family has no savings must rely much more heavily on financial aid than you'll have to. When a student has to rely heavily on financial aid, he or she will almost certainly have to take on a heavier work or loan burden than you will. And in a time when student aid funds are being cut back, your family's thriftiness may put you in the position of being able to attend the college you like best, with or without financial aid. Families who can't help out their children as much may be forced to base more of their choice on costs.

Q The only asset may parents have is our house. Do they have to sell the house to pay for my college education?

A No. Assets contribute to a family's financial strength, and owning a home gives many families more flexibility in using their current income. Therefore, financial aid administrators will ask about whether you own a home in order to understand your overall cash for college. (Some colleges may suggest that families consider taking out second mortgages on their homes or using their homes as collateral in borrowing money to help finance their children's educations.)

Q We live in a big city and the rents on apartment are very high. Does the need analysis system take this into account?

A The "uniform methodology" does take housing costs into account, along with food, clothing, and other family living expenses. Financial aid administrators at some colleges may also reflect the high cost of living in your particular residential area.

Q I have a trust fund that my grandparents set up for me, but I can't touch it until I'm 21. Does this asset get taken into account even though I can't use it to help pay for my college education?

A Yes. Your trust fund—however restricted it may be—nonetheless puts you in a stronger financial position than a student without one. However, in the financial aid application process, you will have an opportunity to describe the restrictions so that financial aid administrators are aware of your situation in considering you for an award.

Q We have special expenses that aren't talked about in this chapter that affect our ability to pay (for example, a handicapped child who requires special medical care or education). Does anybody take this into account?

A Colleges try to take into account the unique circumstances of each applicant. In Chapter 4, where applying for financial aid is discussed, you will learn about ways in which you can make sure that the colleges you're considering at least understand your situation fully. Whether they will be able to give you extra help depends on a variety of factors, one of the most important being how much money they have available to help students in any given year.

Sample students

Our sample students—Andrea, Beth, and Carlos—come from families with very different financial situations. Before they can tell how much they will be expected to pay toward education after high school, they need to evaluate their own circumstances in relation to the costs of attending the particular colleges they're interested in.

On the next page, you'll see that Worksheet 2 has been completed for Andrea's family. The same process was followed for Beth and Carlos (worksheets not shown here) and their parent's contribution shows up in Worksheet 4 as it does for Andrea's parents.

You and your family can begin to get a sense of your need at the different colleges you're considering by completing Worksheets 2 through 5 in the worksheet section of this book. These worksheets will take you through the steps of estimating your parents' expected contribution (Worksheet 2; see also the table for parents' contribution), estimating your own contribution (Worksheet 3), combining the total family contribution (Worksheet 4), and finding the difference between the contribution and the costs at each of the colleges you're considering (Worksheet 5)—that is, *your* estimated financial need.

Worksheet 2: Estimating parents' contribution

	Andrea
1982 income:	
1. Father's yearly wages, salaries, tips, and other compensation	$12,600
2. Mother's yearly wages, salaries, tips, and other compensation	7,200
3. All other income of mother and father (dividends, interest, social security, pensions, welfare, etc.)	150
B. Total income (Add 1, 2, 3)	19,950
Expenses:	
4. Adjustments to income such as employee business expenses, disability income exclusion (the amount allowed on U.S. income tax return)	170
5. U.S. income tax parents expect to pay on their 1982 income (not amount withheld from paycheck)	1,960
6. Social Security (FICA) tax (6.7% times each salary to a maximum of $2,171)	1,327
7. State and other taxes (insert 9% of B)	1,796
8. Medical and dental expenses (not covered by insurance) in excess of 3% of B)	550
9. Elementary and secondary school tuition paid for other dependents in excess of 4% of B	0
10. Employment allowance. If a 2-parent family and both parents work, allow 30% of lower salary to a maximum of $1,900; if 1-parent family, allow 30% of salary to a maximum of $1,900. No allowance for a 2-parent family in which only 1 parent works.	1,900
11. Standard maintenance allowance (See Table for 11)	11,330
C. Total allowances against income (Add 4, 5, 6, 7, 8, 9, 10, 11)	19,033
D. Available income (Subtract C from B)	917
Assets:	
12. Home equity (total estimated value of your home on the current market minus any unpaid balance on your mortgage)	18,000
13. Other real estate equity (value minus unpaid balance on mortgage)	0
14. Business or farm (Figure total value minus indebtedness and then take percentage shown in table.) If your family is only part owner of the farm or business, list only your share of the net value.	0
15. Cash, savings, and checking accounts	900
16. Other investments (current net value)	0
E. Total assets (Add 12, 13, 14, 15, 16)	18,900
Deductions:	
F. Asset protection allowance (See Table for F)	29,700
G. Remaining assets (Subtract F from E)	−10,800
H. Income supplement from assets (Multiply G by 12% if G is $0 or more. If G is negative, use conversion percentage from Table for H.)	648
I. Adjusted available income (Add D and H)	269
J. Parents' expected contribution (Multiply I by taxation rate amount given in Table for J)	59
K. Parents' expected contribution if more than one family member is in college (Divide J by number of family members in college at least half time)	

***Andrea Daley** wants to live at home and attend the local community college. Her father, age 47, earns $12,600 a year as an insurance claims representative; her mother, age 45, earns $7,200 a year as a beautician in a local salon. Her younger brother, age 16, is a sophomore in high school and also hopes to attend college some day. The Daleys have $18,000 equity in their home and $900 in a savings* *account, but no other assets. This year they had unusually high medical and dental expenses because Andrea's brother broke his leg in a soccer game and Mrs. Daley had to have root canal therapy.*

Even though Andrea will live at home with her family and the tuition at the local community college is comparatively low, Andrea and her family worry about how much they can pay toward college.

Table for 11. Standard maintenance allowance

Family size (including applicant)	Number of family members in college: 1	2	3	4
2	$ 7,360	$ 6,100		
3	9,180	7,920	$ 6,660	
4	11,330	10,070	8,810	$ 7,550
5	13,370	12,110	10,850	9,580
6	15,640	14,380	13,120	11,860
Each additional	+ 1,760	+ 1,760	+ 1,760	+ 1,760

Table for 14. Adjustments for business and farm

Net worth	Adjustment rate
Less than $1	$0
$ 1 – 55,000	40% of NW
$ 55,001 – 165,000	$ 22,000 plus 50% of NW over $55,000
$165,001 – 275,000	$ 77,000 plus 60% of NW over $165,000
$275,001 or more	$143,000 plus 100% of NW over $275,000

Table for F. Asset protection allowance

Age	Two-parent family	One-parent family
44 or less	$26,000	$20,700
45–49	29,700	23,300
50–54	34,700	26,600
60–64	49,200	35,300
65 or more	55,400	38,800

Table for H. Income supplement from assets (To be used when G is a negative number. When G is $0 or more, use 12%.)

If available income (D) is:	Use
$ 1,250 or less	6%
$ 1,251– 3,750	5
$ 3,751– 6,250	4
$ 6,251– 8,750	3
$ 8,751–11,250	2
$11,251–13,750	1
$13,751 or more	0

Table for J. Parents' expected contribution

Adjusted available income (AAI)	Total parents' contribution
–$3,410 or less	–$750
– 3,409 to 6,600	22% of AAI
$ 6,601 to 8,250	$1,452 + 25% of AAI over $ 6,600
$ 8,251 to 9,990	1,865 + 29% of AAI over $ 8,250
$ 9,901 to 11,550	2,344 + 34% of AAI over $ 9,900
$11,551 to 13,200	2,905 + 40% of AAI over $11,550
$13,201 or more	3,565 + 47% of AAI over $13,200

Worksheet 3: Student's expected contribution

	Andrea
17. Savings and other assets such as stocks and bonds multiplied by 35%	$175
18. Educational benefits for student such as veterans benefits	0
19. Savings from summer earnings (for the summer before freshman year, allow $700; for subsequent years, $900)*	700
20. Other gifts you have already received	0
L. Student resources (Add 17, 18, 19, 20)	$875

*If you are unable to find a summer job or to save the amount suggested, you should report this to the college.

Worksheet 4: Total family contribution

	Andrea
J. Parents' expected contribution (Use Figure for K instead of J if there is more than one family member in college)	$ 59
L. Student's expected contribution from resources	875
M. Total family contribution (Add J and L)	$934

Worksheet 5: Estimating financial need

	Andrea
A. Total budget	$3,380
M. Total family contribution	934
N. Demonstrated financial need (Subtract M from A)	$2,446

20

Worksheet 3: Student's expected contribution

	Beth
17. Savings and other assets such as stocks and bonds multiplied by 35%	$ 0
18. Educational benefits for student such as veterans benefits	0
19. Savings from summer earnings (for the summer before freshman year, allow $700; for subsequent years, $900)*	700
20. Other gifts you have already received	0
L. Student resources (Add 17, 18, 19, 20)	$700

*If you are unable to find a summer job or to save the amount suggested, you should report this to the college.

Beth Edwards has always planned to attend her state university, and her family was saving hard to make that possible. But two years ago, her father, age 43, died in an automobile accident. Her mother, age 42, does not work outside the home but is kept pretty busy caring for Beth's active 6-year-old sister. The family receives Social Security benefits (which will be reduced when Beth starts college), but has no other income. The Edwards have $25,000 equity in their home and $7,500 in savings (the remains of the life insurance death benefit). Beth had counted on receiving Social Security educational benefits to help her through college, but in 1982 the federal government eliminated such benefits for students enrolling after May 1982. Beth and her mother worry about how much they can pay toward college costs.

Worksheet 4: Total family contribution

	Beth
J. Parents' expected contribution (Use Figure for K instead of J if there is more than one family member in college)	$ 94
L. Student's expected contribution from resources	700
M. Total family contribution (Add J and L)	$794

Worksheet 5: Estimating financial need

	Beth
A. Total budget	$4,410
M. Total family contribution	794
N. Demonstrated financial need (Subtract M from A)	$3,616

Worksheet 3: Student's expected contribution

	Carlos
17. Savings and other assets such as stocks and bonds multiplied by 35%	$ 300
18. Educational benefits for student such as veterans benefits	0
19. Savings from summer earnings (for the summer before freshman year, allow $700; for subsequent years, $900)*	700
20. Other gifts you have already received	0
L. Student resources (Add 17, 18, 19, 20)	$1,000

*If you are unable to find a summer job or to save the amount suggested, you should report this to the college.

***Carlos Fernandez** is interested in a private college in another state. His father, age 57, earns $28,500 annually as a partner in a dry cleaning business; his mother, age 45, does not work outside the home. Carlos has an older brother already in college and a younger sister who plans to go when she completes high school; his parents also support his maternal grandfather who lives with them. The Fernandez family has quite a few assets: $45,000 equity in their home, $24,000 in their business, and $2,000 in the bank. But living expenses for the five family members are high, and Mr. Fernandez is fast approaching retirement age. The costs of attending a private college in another state will be high, and the Fernandez family worries about how much they can pay toward college costs.*

Worksheet 4: Total family contribution

	Carlos
J. Parents' expected contribution (Use Figure for K instead of J if there is more than one family member in college)	$1,667
L. Student's expected contribution from resources	1,000
M. Total family contribution (Add J and L)	$2,667

Worksheet 5: Estimating financial need

	Carlos
A. Total budget	$7,300
M. Total family contribution	2,667
N. Demonstrated financial need (Subtract M from A)	$4,633

3. BRIDGING THE GAP: FINANCIAL AID FOR COLLEGE

Financial aid is help for meeting college costs: both direct educational costs (such as tuition, fees, and books) *and* personal living expenses (such as food, housing, and transportation).

People are sometimes surprised that students can get financial aid to help them pay for living expenses. Even colleges with comparatively low tuitions, like community colleges, can give qualified students some help in paying for food, rent, commuting, and other personal expenses.

Many students don't realize that financial aid is available to pay for noncollegiate education and training programs, too. If you are thinking about vocational or trade school after high school, financial aid could be a possibility for you.

Who gets financial aid?

While many scholarships are based on criteria other than demonstrated need, most financial aid today is awarded on the basis of need. (Sometimes factors such as academic performance, career plans, or special abilities are considered *in addition to* demonstrated need). Chapter 2 explained that "need" is the difference between what it costs to attend a particular college and what you and your family can afford to pay toward those costs. Students are usually eligible for aid equal to the amount of their demonstrated financial need.

Since the amount a family can afford to pay stays the same whether the costs are high or low, you can see that you would be eligible for different amounts of aid at different colleges. In fact, if you get all the financial aid you're eligible for, you could end up paying the same amount at a high-cost college as you would at a lower-cost one.

That's a pretty big "if." In 1981-82, more than 5 million students received more than $17 billion in various forms of student assistance to help them meet the costs of education or training after high school. Large as that amount may seem, it still wasn't enough to fully meet the need of all the students who could have used some help. And when this book was written, student aid funds appeared to be declining, not increasing.

But you can improve your chances of getting the outside help you need. Financial aid doesn't just *happen* to you. You have to take an active part in the process—by identifying all possible sources of assistance for which you might be eligible (the topic of this chapter) and by applying in the right way at the right time (discussed in Chapter 4).

Types of financial aid

There are three types of financial aid generally offered to undergraduate students in college.

Grants and scholarships are sometimes called "gift aid," because you don't have to repay it or work to earn it. Grants are usually awarded on the basis of need alone, while scholarship recipients may have to meet criteria other than or in addition to need (academic achievement, for example).

Educational loans are a form of "self-help aid." These are usually subsidized by the state or federal government or by colleges themselves and carry lower interest rates than commercial loans. But they have to be repaid, generally after you have graduated or left college.

Student employment or work aid is another form of "self-help aid." The federal College Work-Study program is perhaps the best known example of this kind of assistance. Students work, usually 10 to 15 hours a week, to "earn" their aid.

Financial aid comes from a variety of sources: the federal government, the state government, colleges themselves, and a wide range of private organizations.

Most students get a combination of "gift aid" and "self-help aid" from a variety of different sources. This is called a financial aid "package." The financial aid administrator at the college you attend or apply to will help you put your package together.

Eligibility for financial aid

While each program has its own special criteria, certain basic eligibility requirements are common to almost all programs. For instance, to be eligible for most programs, you must be at least a half-time student (usually defined as six semester hours of courses per semester or its equivalent). But some programs, such as those sponsored by colleges and private organizations, require recipients to attend on a full-time basis, usually at least 12 hours per semester.

You must also be enrolled in an eligible program in an eligible institution, according to the aid program's definition. For some federal student aid programs, you can receive aid to attend more than 7,500 eligible institutions, including colleges, universities, and vocational and technical schools. State aid programs are sometimes limited only to accredited colleges and universities. Some programs have restrictions on providing aid to students in certain fields of study (for example, religious studies) or in vocational or technical courses (those that are shorter than six months in duration).

Most programs require that you maintain satisfactory academic progress toward a degree or certification and be in good standing with the institution you attend.

Federal student aid programs require that a recipient be either a U.S. citizen, or a noncitizen who is a permanent resident; refugees or persons granted political asylum are often eligible, too. State student aid programs are usually restricted to legal residents of their particular state, although exceptions to this rule do exist, especially in loan programs. College-sponsored and private assistance programs usually require recipients to be citizens of the United States, too, except for a few programs designed for foreign students.

Financial aid from the federal government

For the last quarter century, there has been a national bipartisan commitment to equalizing educational opportunity that prompted the creation and expansion of federal student assistance programs. When this book went to press, the national Administration was urging Congress to reduce the federal role in postsecondary education and drastically cut back on student aid expenditures for fiscal year 1983 and beyond. There was strong opposition to the proposed reductions in Congress, fueled by the criticism of many student groups, educational associations, and a wide range of other groups. You should be aware that the federal programs described here could be significantly changed, or even eliminated, by the time you are ready to start college. For the most current and detailed information about federal programs, you should obtain a copy of the free federal pamphlet cited in the bibliography at the end of this chapter—*Student Consumer's Guide: Five Federal Financial Aid Programs*.

These are the major federal programs for which undergraduate students can qualify.

Pell Grant Program

The Pell Grant Program (formerly called the Basic Educational Opportunity Grant Program) is the largest need-based student aid program. In 1981-82 nearly three million undergraduates received Pell Grants ranging from $200 to $1,670. The amount a student receives depends on need, the costs of education at the particular college he or she attends, the length of the program in which he or she is enrolled, and whether enrollment is full- or part-time. Graduate students are not eligible, nor are students who have previously received a bachelor's degree.

Supplemental Educational Opportunity Grant Program

The Supplemental Educational Opportunity Grant Program (SEOG) is one of three federal "campus-based" programs. "Campus-based" means that while the money comes from the federal government, the colleges distribute the money to students who demonstrate need. Recipients must be U.S. citizens enrolled at least half-time in an undergraduate program at an accredited college or university. Awards are based on need, and can range from $200 to $2,000.

National Direct Student Loan Program

The National Direct Student Loan Program (NDSL) is another federal campus-based program administered by colleges and universities. Undergraduate and graduate students enrolled at least half-time may borrow up to $3,000 a year for a total of $6,000 for an undergraduate degree or $12,00 for graduate study (including any NDSL funds borrowed as an undergraduate).

NDSLs carry the lowest interest rate of any educational loans (5 percent) and repayment is deferred until a student graduates or leaves school. Six months after a student leaves school, regular repayments are required over a maximum period of ten years until the total amount plus interest is repaid. A minimum monthly payment of $30 is usually required, unless the college agrees to a lower amount.

Repayment can sometimes be further deferred for up to three years for service in the military, the Peace Corps, or approved comparable organizations, or if study is resumed on at least a half-time basis. (In such instances, however, the student does not get another six-month grace period in which to defer payment.) A student who wants to have repayment of an NDSL deferred for any reason must complete a request form and submit it to the college from which the NDSL was originally borrowed.

NDSLs are canceled outright in the event of a student's death or total disability. Portions of the loan can also be forgiven in exchange for teaching handicapped students or teaching in specific schools. (See Chapter 6 for more information about borrowing money from NDSL and other programs, including legal requirements and advice.)

College Work-Study Program

The College Work-Study Program (CWSP) is also a federal campus-based program. Participating colleges provide employment opportunities for students with demonstrated need who are enrolled for at least half-time study at either the undergraduate or graduate level. Students are almost always employed on campus, although occasionally jobs are arranged off campus for public or private nonprofit organizations. In assigning Work-Study to aid recipients, financial aid administrators typically take into account their employable skills, class schedule, and academic progress.

Students are generally paid at least the prevailing federal minimum wage (although legislation is currently pending that would permit colleges to pay subminimum wages in certain circumstances). Students may work as many as 40 hours a week under the program but 10 to 15 hours is far more typical; the only limitation on College Work-Study is a student's demonstrated financial need.

Examples of on-campus jobs for students are faculty aide, dining hall worker, library assistant, groundskeeper, office secretary, and financial aid peer counselor.

Service academies

The United States service academies prepare both men and women for careers in the military, Merchant Marine, or Coast Guard. Students attending one of the academies have all expenses paid by the federal government and receive a monthly stipend for incidental expenses as well. Appointments to the academies (with the exception of the Coast Guard) are made through nominations from members of Congress. If you are interested, contact your senator or congressional representative early in the spring of your *junior* year in high school. Appointments to the Coast Guard Academy are based on national competition for admission. For more information, write:

Reserve Officer Training Corps

Reserve Officer Training Corps (ROTC) programs are located at more than 600 colleges and universities across the country. Full-time undergraduate students between the ages of 17 and 25 may qualify for ROTC scholarships that cover the costs of tuition, fees, and books, and provide a monthly stipend of $100. Students who receive ROTC scholarships must meet certain physical and academic requirements and must also agree to accept appointment as commissioned officers in the military after graduation (a minimum of four years' active and two years' reserve duty). For more information, contact the ROTC unit at the college you're considering, or write:

Navy-Marine Corps NROTC Scholarship Program
PO Box 30, Iowa City, IA 52240

Bureau of Indian Affairs

Students who can demonstrate financial need and are at least one-fourth American Indian or Alaskan Native of a federally recognized tribe are eligible for assistance through the Bureau of Indian Affairs (BIA). Scholarship assistance may be used at any accredited postsecondary institution. For more information, contact your tribal education officer, BIA Area Office, or write: Bureau of Indian Affairs, PO Box 1788, Albuquerque, NM 87103.

Financial aid from state governments

Every state has a scholarship or grant program which provides some form of financial aid to eligible students who are legal residents of the state. Eligibility criteria vary from state to state. Most state programs award aid to students with demonstrated need, although a few states have some funds available to assist students who meet criteria other than or in addition to need (such as academic performance). Most programs require that students attend a postsecondary institution within the state. (A few states have reciprocal agreements with other states, meaning that students can use their state grants in other states, but this practice may decline as funds become more limited.)

Your high school guidance counselor is able to provide you with additional information about the programs and requirements in your particular state. Appendix 3 contains summaries of the major scholarship and grant programs in each of the 50 states, with an address to which you can write for additional information.

Financial aid from colleges

In addition to the federal and state financial aid programs, an important resource for many students are the assistance programs sponsored and administered by colleges and universities themselves. College-sponsored financial aid usually comes from one of two sources: tuition revenues and contributions from private donors.

Some scholarships and grants-in-aid are based on demonstrated need, while others are awarded to students who meet criteria other than or in addition to need (such as academic performance, proposed field of study, or special talents or abilities).

Student employment programs are also provided on many campuses to supplement employment provided through the College Work-Study Program. These college-funded job programs are not usually based on financial need, but on the special skills of the student employees. Examples include laboratory assistance, business office aide, and dormitory resident adviser. At some colleges, need is also considered in addition to skills and experience.

Short-term and emergency loans are usually available to all students. The repayment period is generally confined to an academic year, and interest is either quite low or not charged at all.

The criteria and application procedures for college programs vary considerably, and your best source of information is the college catalog or financial aid bulletin published by the college you're considering. Private colleges often have more college-sponsored aid available to assist students than do public institutions; proprietary or profit-making institutions generally have very little or none at all.

Assistance from the Guaranteed Student Loan Program

The Guaranteed Student Loan (GSL) Program permits students to borrow money for educational expenses from private sources—like banks, credit unions, and savings and loan associations. In some states, a public agency also acts as a lender; some colleges also participate in the program as lenders. Because GSLs are subsidized by the government, the current interest rate at 9 percent is lower than most commercially available loans (although higher than NDSLs). Repayment on both interest and principal is deferred until a student graduates or leaves school. In most states, a state government guaranty agency (or a private organization authorized by the state government) insures the loans; in those states where there is no guaranty agency, the federal government insures them, in which case they're called Federally Insured Student Loans.

Although some states permit half-time students to borrow under the GSL program, most states require that borrowers be full-time students. Undergraduates may borrow up to $2,500 a year (to a maximum of $12,500); limits are lower in Louisiana, Oklahoma, and South Carolina. Graduate and professional students are currently eligible to borrow up to $5,000 a year to a maximum of $25,000 including any undergraduate loans. However, the Reagan Administration has proposed eliminating graduate and professional students from the GSL program.

Loans are limited to a student's college expense budget minus any other financial aid received. The amount that students from families with an adjusted gross income (AGI) in excess of $30,000 can borrow is restricted to the remaining financial need *after* the expected family contribution and any financial aid received are deducted from the costs of education. Students from families below the $30,000 level can borrow the amount either to meet remaining need or to cover part of the expected family contribution.

If you borrow money under the GSL program, you are charged a 5 percent "origination fee" or service charge. This amount is subtracted from the amount of your loan money before you receive payment.

GSLs are insured against the student's death or total disability, but there are no provisions for cancellation of any part of a loan for other reasons. Under certain circumstances (full-time study, professional internship, service in the military or Peace Corps), repayment of a GSL can be deferred temporarily. The schedule for repayment is worked out between the student and the lender; a GSL recipient usually has between five and ten years to repay, with the amount of monthly payments and the length of the repayment period depending on the total amount borrowed.

When this book was written, the Guaranteed Student Loan Program was under intense scrutiny by Congress, and some changes in the program may occur by the time you are actually ready to start college. Among the proposals being considered to reduce the expense to the federal government for this program are an elimination of subsidized interest while the student is in college, an increase in the interest rate, an increase in the origination fee, and/or a restriction of GSL funds to the amount of the remaining demonstrated need for those families at income levels below as well as above $30,000 AGI.

For more information about GSLs, contact the financial aid office at the colleges you're considering, your guidance counselor, or the guaranty agency for your state listed in Appendix 3 of this book. (See Chapter 4 for information about applying, and Chapter 6 for advice on responsible borrowing.)

Assistance from benefit programs

Benefit programs are not quite the same as financial aid programs, but they provide many students with assistance in meeting college costs. One of the biggest benefit programs designed to help students began phasing out in 1982—social security student benefits for students between the ages of 18 and 22 who received assistance because of the death, disability, or retirement of a parent. Only students who were already enrolled in postsecondary education by May 1982 are eligible to start receiving benefits, and the amount of aid for students currently receiving benefits was markedly reduced.

Veterans' education benefits

These are programs designed to assist students who have served or are currently serving in the military, or students who are dependents of veterans.

The GI Bill provides monthly benefits for veterans who served at least 181 days of continuous active duty between January 31, 1955, and December 31, 1976, and who were discharged under conditions other than dishonorable. (Veterans who were released from active service because of a service-related disability or who enlisted in a reserve unit before January 1, 1977, but served active duty for at least 181 days beginning within 12 months after January 1, 1977, may still be eligible.) The amount and duration of benefits depends on length of service and other factors.

Under the Post-Vietnam Veterans' Educational Assistance Program, persons who entered the service after December 31, 1976, are eligible for matching funds from the Veterans Administration at a rate of $2 for each $1 (up to $2,700) contributed by the veteran while in the service (up to $5,400 in matching funds). These funds are provided by the Veterans Administration until 10 years after the date of last release or discharge from active duty after January 1, 1977. Entitlement is limited to 36 months or the number of months the veteran contributed to the program, whichever is less. (*Note:* Pending legislation may significantly alter this program.)

The Veterans Administration will also help cover the costs of educating a veteran's spouse or children if the veteran is completely disabled as a result of service-connected causes. (Benefits also apply to active-duty personnel who died as a result of service or who have been missing in action or captured in the line of duty for more than 90 days.) Monthly payments are usually provided for single or married children between the ages of 18 and 26. For more information about these programs, contact your local Veterans Administration office.

Vocational rehabilitation benefits

Since 1977 the federal Rehabilitation Act has prohibited discrimination on the basis of a handicap and has provided for equal participation by handicapped people in programs and activities of postsecondary educational institutions that receive federal funds. The intent of the law is to assure qualified handicapped students of access to educational programs, including financial aid. Many colleges have tried to expand opportunities particularly in the College Work-Study area.

State vocational rehabilitation agencies in most states can help students with handicaps to meet the costs of education or job training after high school. In many states, these agencies are working with groups of financial aid administrators to develop cooperative agreements about financial aid and other assistance for handicapped students enrolled in postsecondary institutions. In developing an aid package for a handicapped student, the financial aid administrator at the college will typically consider both the amount of assistance and type of services provided by the vocational rehabilitation agency. A handicapped student's expense budget may be larger than a nonhandicapped student's budget, in order [illegible]ke into account their greater expenditures for such [illegible]ngs as special equipment, noninsured and nonrou[illegible] medical expenses, assistants or attendants, and special transportation needs.

To find out about special help for handicapped students, contact your state department of vocational rehabilitation.

Help from private student aid sources

While aid from the federal government, state governments, and colleges and universities constitutes most of the financial assistance received by students, private student aid programs can offer important assistance. The total amount of funds available through such private programs is comparatively small. But for an individual student, these programs can mean the difference between attending the college one likes best and the college one can afford. So it's worth it to investigate private programs for which you may be eligible.

There are literally thousands of private student aid programs in the United States that award grants, scholarships, and low-interest loans to students to help them further their education or training after high school. One of the best programs is the National Merit Scholarship Program, which awards over $19 million each year to almost 6,000 students. High school juniors compete for these awards by taking the Preliminary Scholastic Aptitude Test/National Merit Scholarship Qualifying Test (PSAT/NMSQT) in October at one of the more than 17,000 high school test centers around the country.

Eligibility criteria, application procedures, number of awards given annually, and average award amounts vary tremendously from program to program. Some programs base their awards on financial need, others on need plus other criteria, and still others don't consider need at all. You might qualify because of your:

- academic achievement
- religious affiliation
- ethnic or racial heritage
- community activities
- artistic talents
- leadership potential
- athletic ability
- career plans
- proposed field of study
- hobbies and special interests
- parents' employers or union membership
- parents' membership in a civic or fraternal group

Since virtually everyone can claim to meet one of those general criteria, some perspective on the subject seems important. Frequently, stories appear in the press about the "millions of scholarship dollars that go begging every year." Strictly speaking, that's true, but that doesn't mean that if you go begging for some of them that you'll necessarily get any!

Many of the scholarships are tied to particular colleges and universities, or programs of study within those institutions. For instance, there may actually be an obscure little scholarship fund for students with a particular last name, but it has to be used at the particular college which administers that bequest. That means you have to be admitted to that college before you can claim any of the funds. If that happens to be a college you have been accepted to and want to attend anyway, terrific! But trying to finance your education on this basis is a little like using coupons to get a discount on a product that you don't really want and would never buy under normal circumstances.

Many of the scholarships have very detailed and restrictive eligibility requirements—you might, for instance, have to live in a certain state or region, attend a particular college, pursue a particular course of study, meet certain high academic standards, and demonstrate financial need. If you don't meet them all, you don't qualify.

That said, it nonetheless makes good sense to investigate all possible sources of assistance for which you might be eligible. Check with your guidance counselor, and periodically look for notices on your school bulletin board. If you are not yet a senior, read your hometown newspapers (especially in April, May, and June) for the names of scholarships given to graduating seniors in your area. If you think you may qualify, check with the sponsor.

Contact your church or synagogue to see if either the local unit or the national organization offers any student aid programs. Contact local civic and fraternal organizations, religious groups, and veterans' posts; many local, state, and national units sponsor some scholarship programs, especially for members' children.

Ask you parents to check with their employers. Many employers have some form of scholarship or grant aid available to help employees' children meet educational expenses; sometimes these programs are competitive, with awards based on academic achievement, while others are based on demonstrated need alone. Some employer programs are even offered as employee fringe benefits, particularly in educational institutions and nonprofit organizations.

If your parents hold membership in labor unions or trade and professional associations, they may discover that these organizations have some type of aid available to assist members' children. If one of your parents is a military veteran, you may also qualify for some help.

Investigate programs that may be underwritten by local businesses and industries. Community-based Education Opportunity and Upward Bound programs can sometimes assist you in identifying private sources of aid, too.

And take a few hours to go through books in your library about sources of financial aid (some are listed in the bibliography at the end of this chapter). You could be pleasantly surprised to discover that there is a local, regional, or national scholarship program that is aimed specifically at someone with your particular experiences, talents, part-time employment history, career plans, or proposed major. If you have any particular talents, you should also ask your counselor or principal for a copy of the "Advisory List of National Contests and Activities" published annually by the National Association of Secondary School Principals; this pamphlet lists contests and competitions for a surprising range of fields, from public speaking and creative writing to foreign languages and computer programming.

Questions and answers about financial aid

Q With fewer scholarship and loan dollars available and jobs so hard to find, is financial aid available only to people with very low incomes?

A No. You don't have to be poor to receive financial aid, but you *do* have to prove you need it. You are eligible for financial aid equal to the difference between college costs (tuition, living expenses, and so forth) and what you and your family can afford to contribute toward those costs.

Q I've done an estimate of my expected family contribution and financial need on the worksheets in Chapter 2. Can I count on getting this much money to help me?

A Not necessarily. The impact of proposed federal student aid cutbacks makes it difficult to predict with any certainty how much aid will be available. You may be *eligible for* a certain amount, but you may not be able to get all you're eligible for simply because there's not enough to go around.

If you've done the estimate, you've got a rough idea of your financial need, but you should be aware of some important limitations on this estimate.

- The methods and formulas used in analyzing a family's financial need can and often do change from year to year. The College Scholarship Service (CSS) of the College Board continually reviews the methods of need analysis used by most colleges and financial aid programs, and annually refines its system to reflect such factors as increases in the cost of living.
- Family situations change. Your family may have unusual personal or financial circumstances that could not be adequately taken into account in these calculations, but would affect your family's ability to pay for education. (An example might be unusually high expenses associated with an illness or a disability). When the time comes for you to actually *apply* for financial aid, you can provide more detailed information than you used in completing these worksheets. At that time, you can explain your financial situation in more detail, and note any special family circumstances.

Check the public library, your school library, and local organizations for information on aid programs that match your talents and career plans.

- You should be aware that financial aid administrators at colleges can—and often do—adjust the family share calculated by CSS, if a change in circumstances or additional information about your situation warrants a revision. This is because a national need analysis system can never accommodate all the special circumstances that make each family's situation unique.

For any of these reasons, your expected family contribution and financial need could be different from your current estimate when the time actually comes for you to apply for financial aid. Use the estimates as a tool for planning, but count on doing as much as you can to help yourself.

Q If I am awarded aid, when will I actually get my money?

A You should get your money when you enroll (although not necessarily "on the spot") or at the start of the term or semester for which you are receiving aid. The actual date will depend on the awarding practices at the college in which you enroll. The financial aid officer can tell you exactly when you will receive your award. Note that awards are not necessarily cash grants but may also be in the form of loans and jobs; most students get a combination or "package."

Q I plan to attend school half time, but I'll still need help with expenses. Will going to college part time lessen my chances of receiving aid?

A In awarding aid, many institutions give priority to full-time students; however, you may be eligible for some aid on a half-time basis. Depending on the priorities and availability of funds at a particular college, half-time students could be eligible for virtually all forms of federal aid. Depending on your financial situation, you could be eligible for a Pell Grant. Ask the financial aid office at the colleges you're considering whether part-time students are given any assistance.

Q Are noncitizens eligible for financial aid?

A In most cases noncitizens are not eligible for tax-supported financial aid (such as federal or state assistance). Usually, however, noncitizens who are permanent residents are eligible, as are some refugees. Some colleges may have limited private funds to assist foreign students. Noncitizens applying to colleges in the United States are encouraged to read *Financial Planning for Study in the United States*, a booklet published by the College Board.

Q Will I receive special consideration if I have brothers and sisters who are continuing their education beyond high school?

A Generally speaking, yes. Your parents cannot be expected to contribute as much to your college costs if you have other brothers and sisters whom they are also assisting.

Q My older brother was turned down for financial aid last year. Is there any point in my trying for financial aid?

A Definitely! College costs, institutional policies, and your family's financial circumstances change from one year to another. The only way to know for sure whether you're eligible for financial aid is to apply. (See Chapter 4 for details.)

Q My older sister and my next-door neighbor both applied for financial aid at the same school last year. Their house is bigger than ours, and they make more money than our parents, so why did my neighbor get more financial aid than my sister?

A The "uniform methodology" used to assess family financial strength is designed to treat families in similar circumstances equally. There are many reasons why your neighbor may have received more money than your sister:

1. Although her family has a larger house and a greater total income, they may also owe substantially more money on their home mortgage. If so, they would be able to contribute less to college costs and would be eligible for more aid.

2. The family might have financial circumstances of which you are unaware (more family members, extraordinary medical expenses, and so forth).

3. Your neighbor may have met some packaging or other criteria that your sister did not meet. For instance, the college may have been able to award her some aid because of her proposed academic major or because of her past academic achievement.

4. The college didn't have enough money to fully meet the needs of all the students who needed some assistance. Unfortunately, when the overall student need at a college exceeds the funds available, the financial aid administrator has to make difficult choices in deciding how much to give each recipient.

But *you* are not your sister. The only way to find out if you're eligible and how much you can receive is to apply for financial aid.

Bibliography of aid sources

General

Annual Register of Grant Support: 1981-82. 15th ed. Chicago: Marquis Academic Media, 1982. $70.50. Updated annually. Over 2,000 programs providing grant support in the humanities, international affairs, race and minority concerns, education, environmental and urban affairs, social sciences, physical sciences, life sciences, technology, and other areas are listed.

Financial Aid for College Students: Sources of Information. Washington, D.C.: American Chemical Society, 1981. Free. Updated biennially. This publication contains a selected bibliography and list of grant programs.

Financial Aid to Education. New Haven: Knights of Columbus, 1981. Free. This publication contains information about loans and scholarships for children of members of the Knights of Columbus.

Kessler, Oreon, ed. *Financial Aids for Higher Education, 1981-82*. 10th ed. Dubuque, Ia.: Wm. C. Brown Company, 1981. $19.95. Updated biennially. More than 4,000 programs are listed specifically for students entering as college freshmen.

Kurzig, Carol M., ed. *Foundation Grants to Individuals*. 3rd ed. New York: Foundation Center, 1982. $15. Undergraduate and graduate scholarship sources are categorized under general and specific requirements. Also included are fellowships, residencies, internships, and grants by United States foundations to foreign nationals or citizens as well as company-sponsored aid programs.

Mathies, M. Lorraine, ed. *The College Blue Book: Scholarships, Fellowships, Grants, and Loans*. 5th ed. New York: Macmillan Information, 1981. $40. Sources of financial assistance are listed for high school seniors through students involved in advanced professional programs.

Need a Lift? Indianapolis: The American Legion, 1979. $1. Updated annually. Sources of career, scholarship, and loan information for all students are listed, with emphasis on scholarship opportunities for veterans, their dependents, and children of deceased or disabled veterans.

Student Aid Annual, 1981-82. Moravia, N.Y.: Chronicle Guidance Publications, Inc., 1981. $12.50. Financial aid programs offered by noncollege organizations are listed for students at undergraduate and graduate levels of study.

Student Consumer's Guide: Five Federal Financial Aid Programs, 1982. Washington, D.C.: U.S. Government Printing Office. Catalog number 535J, 1982. Free. Order from Consumer Information Center, Department B, Pueblo, Colorado 81009. Updated annually. Five financial aid programs sponsored by the federal government.

Specific population groups

Career Development Opportunities for Native Americans. Washington, D.C.: Bureau of Indian Affairs, 1975. Free. Listed are approximately 100 sources of assistance for students who are at least one-fourth American Indian or Alaskan Native blood quantum of a tribal group recognized by the Bureau of Indian Affairs for certain benefits. Contains insert updated annually.

Graduate School Information Aids. Washington, D.C.: American Chemical Society, 1979. Free. This publication contains a selected bibliography and list of grant programs.

Johnson, Willis, ed. *Directory of Special Programs for Minority Group Members: Career Information Services, Employment Skills Banks, Financial Aid Sources*. 3rd ed. Garrett Park, Md.: Garrett Park Press, 1980. $20. This is a companion volume to other Garrett Park Press publications. See the series edited by Michele Wilson.

List of Organizations that Accept Applications for Financial Support from Foreign Students Already in the United States. Washington, D.C.: National Association for Foreign Student Affairs, 1979. $.75.

Schlachter, Gail Ann. *Directory of Financial Aid for Women*. Los Angeles: Reference Service Press, 1978. $15.95. This is a listing of scholarships, fellowships, loans, grants, internships, awards, and prizes designed primarily or exclusively for women. Also included are listings of women's credit unions and state sources of educational benefits.

Selected List of Postsecondary Opportunities for Minorities and Women. Washington, D.C.: U.S. Government Printing Office. Stock number 065-000-000-58-0, 1980. $4.50. Updated annually. This is a list of educational opportunities for minorities and women at the postsecondary level by fields of study. It also provides general information about seeking assistance in pursuing additional educational and career goals.

Turner, Roland, ed. *Grants Register, 1981-83*. New York: St. Martin's Press, 1981. $32.50. Updated biennially. Scholarships and fellowships at all levels of graduate study are listed. Specific awards are included for refugees, war veterans, minorities, and students in unexpected financial difficulties.

Wilson, Michele, ed. *Financial Aid for Minorities in Business*. Garrett Park, Md.: Garrett Park Press, 1975. $2. This publication lists financial aid sources for minority students specifically in business. Other books in the series ($2 each) are: *Financial Aid for Minorities in Education, Financial Aid for Minorities in Journalism/Communications*, and *Financial Aid for Minorities in Law*.

Fields of study

Arts

Millsaps, David. *The National Directory of Grants and Aid to Individuals in the Arts International*. 4th ed. Washington, D.C.: Washington International Arts Letter, 1979. $15.95. Grants, prizes, and awards for professional work in the United States and abroad are listed. Included is information about universities and schools offering aid to students in the arts.

Communications

Grants and Awards Available to American Writers, 11th ed. New York: P.E.N. American Center, 1980. $3.50. Updated annually. Awards granted to American writers to use in the United States or abroad are listed.

1980 Journalism Career and Scholarship Guide. Princeton: Newspaper Fund, 1980. Free. Updated annually. In addition to information on journalism programs, this publication contains a section on scholarships and minority grants.

Health

Allied Health Education Directory, 10th ed. Chicago: American Medical Association, 1982. $26. This publication contains a section on financial aid in addition to a listing of allied health education programs.

Helping Hands—Horizons Unlimited. Chicago: American Medical Association, 1980. $1.50. Selected bibliography of financial aids for health careers.

Medical School Admission Requirements. U.S. and Canada, 1982-83. Washington, D.C.: Association of American Medical Colleges, 1981. $6.75. Updated annually. Included are suggestions for undergraduate financial aid planning, sources of aid at medical schools and postmedical school levels, and aid sources for minorities and the disadvantaged.

Scholarships and Loans for Beginning Education in Nursing. New York: National League for Nursing. Publication Number 41-410. $1.50.

History

Fellowships and Grants of Interest to Historians, 1981-82. Washington, D.C.: American Historical Association, 1981. $4 to members; $5 to nonmembers. Updated annually.

Library education

Financial Assistance for Library Education. Chicago: American Library Association, 1980. $.50. Updated annually. Assistance administered by state library agencies and associations, local libraries, and academic institutions is listed.

Music

Pavlakis, Christopher. *American Music Handbook*. New York: The Free Press, 1974. $25. United States and international music contests, awards, grants, fellowships, and honors are listed.

Philosophy

Fellowships and Grant Opportunities of Interest to Philosophers, 1981-82. Newark, Del.: American Philosophical Association, 1981. $5.00. Updated annually. This listing is included as a section in the Association's May *Proceedings and Addresses*.

Photography

McDarrah, Fred W., ed. *Photography Market Place, 1977-78*. 2nd ed. New York: Bowker, 1977. $21.50. A chapter is included on grants, awards, and prizes.

Psychology

Graduate Study in Psychology, 1982-83. Washington, D.C.: American Psychological Association, 1981. $8.50. Information about financial assistance and foundations and agencies accepting fellowship applications is included with information about graduate programs in psychology.

Speech

Student Financial Aid: Speech Pathology and Audiology. Rockville, Md.: American Speech and Hearing Association, 1981. Free. This is a mimeographed listing of general information about grants, scholarships, and loans at the graduate level and information about aid for graduate education in the field.

4. APPLYING FOR FINANCIAL AID

If you have estimated your expenses at the colleges that interest you, evaluated your family's financial situation, and concluded that you will need some extra help in meeting educational expenses, then you should apply for financial aid. Even if you are not certain that you will qualify, you should apply—that's the only way to find out if you are eligible.

Simply applying for admission to college is not enough. If you think you need financial aid, you *must apply* for aid.

The process of applying for financial aid can be confusing and time-consuming, especially to the first-time applicant. (Yes, you must reapply for aid every year, but it really does seem a lot simpler and less confusing the second time around.) In Chapter 3, you learned about the various types and sources of financial aid. The application requirements differ from college to college (and program to program), but the good news is that you don't really have to file separate applications for each and every one.

In order to improve your chances of getting the aid you need, you must know *what* you have to do, *when* you have to do it, and *how* to do it right—the first time.

The Financial Aid Form and other need analysis documents

For most students, the process begins with the completion of a "need analysis document" like the Financial Aid Form (FAF) published by the College Scholarship Service (CSS). Some students may be asked instead to file other forms, such as the Student Aid Application for California (SAAC) also published by the CSS, the Family Financial Statement (FFS) published by the American College Testing Program, the Pennsylvania Higher Education Assistance Agency (PHEAA) application, the Graduate and Professional School Financial Aid Service (GAPSFAS) form, or the Application for Federal Student Assistance (AFSA). FAFs and other need analysis forms are available in high school guidance offices, college financial aid offices, and many community centers.

Check with each college and program to determine exactly what need analysis form you should file to begin the process. Because most colleges, state agencies, private programs, and the federal government require or accept the FAF or FFS, the chances are very good that you will only have to complete one need analysis document. Simply list on the FAF all of the colleges and programs from which you are seeking aid.

While you are checking on required forms, make sure you understand the deadlines, too. File a need analysis form as soon as possible after January 1 to be considered for the following fall academic term. If possible, send in your completed need analysis form at least four weeks before the earliest deadline you need to meet.

Need analysis forms ask for information about your family and finances much like that reviewed in Chapter 2—information about income, assets, family size, unusual expenses, and so forth. Detailed step-by-step instructions accompany the need analysis form. You should gather your most recent income tax returns, W-2 forms, and other financial records together before sitting down to complete the form.

The information you report on the need analysis form is confidential and sent only to the colleges and programs you list. After you submit a completed need analysis form, your information is analyzed and a preliminary estimate made of what your family could be expected to contribute toward college expenses. The processing agency prints this information on a "need analysis report," which is sent to the colleges and programs that you listed. (If you are using an FAF, a photocopy of your FAF is also sent to the colleges and programs along with the report.)

If you indicated on your form that you also want to receive consideration for federal or state student aid, the processing agency sends information from your form to those programs as well.

At about the same time, the processing agency will also send an "acknowledgment" to you indicating that your form was received and processed. Review this information carefully to make sure that the data you originally provided was correctly recorded, and that all the colleges and programs to which you are applying received the appropriate copies.

If something on your original form was incomplete, you may get a request for more information. Make sure that you respond promptly and accurately to any such requests.

Your acknowledgment may also contain messages from colleges or programs indicating that additional information is needed. For instance, a college-specific message may ask you to send a copy of your parents' tax return to the financial aid office. Again, respond promptly and accurately to any such requests from colleges.

When colleges and programs receive your need analysis report, they will evaluate your financial need and eligibility, and decide how much money you will actually receive. Eventually you will receive award notices from the colleges to which you applied, as well as from your state scholarship or grant program and the federal student financial aid programs. Review all communications carefully, and promptly supply any additional information that may be requested.

Tips on completing a need analysis form

1. *Make sure you know what need analysis form you need to complete.* Usually the FAF will serve for all of the colleges and programs from which you are seeking aid, but check to make sure. The most reliable source of information about a particular college's requirements is the catalog or financial aid bulletin published by the college itself. For federal programs, including Pell Grants and campus-based programs, you can simply check off the appropriate box on the FAF or other appropriate document to indicate that you want to be considered for federal assistance. (*Note:* Read the instructions on your need analysis form carefully to make sure that the same conditions prevail for the 1983-84 documents.) In many states, you can apply for state aid by a similar process; your high school counselor can tell you whether the FAF or FFS can be used to apply for aid in your state. Private student aid programs may or may not require you to complete a need analysis form; review their published guidelines for details.

2. *Read the instructions that accompany the form.* If you don't understand them, read them again. If you don't understand them, read them again. Enough said.

3. *Gather your financial records together before you start completing the form.* Because need analysis documents ask questions about your family's financial situation, it is helpful to have such records as the following on hand: your federal income tax returns (IRS 1040 or 1040A), state and local income tax returns, W-2 forms and other earnings records (e.g., paycheck stubs), current bank statements, current mortgage information, records of medical and dental bills, business or farm records, and records of veterans' benefits and social security payments.

4. *Complete the form accurately, completely, and legibly.* Inaccurate or missing information could cause costly delays in processing your application.

5. *Provide all information requested.* Don't leave any questions blank; for instance, if an answer is zero, enter zero. Keep in mind that colleges may subsequently request a copy of your parents' tax return to verify the information you reported on your FAF or other need analysis document. Inaccurate information may jeopardize your getting financial aid.

6. *Submit your need analysis form for processing as early as possible AFTER January 1.* If possible, send in your form at least four weeks before the earliest deadline. This may not always be possible if a deadline falls before January 31. In that case, just send in the form as soon as possible after January 1. (If you send in your form *before* January 1, federal rules require that you file another form later reporting your income, and this could, in the end, delay your application.)

7. *When you get your acknowledgment back from the processor of your need analysis form, review it carefully.* Make sure that your records have been sent to all of the colleges and programs by which you want to be considered. Check the data that were used in the calculations of your family's ability to pay to make sure that they are accurate. Review any messages contained on your acknowledgment directing you to provide additional information to colleges or programs.

Other applications you may have to complete

Although a need analysis form is the starting point of the process, you may also be required to complete several other documents during the course of applying for financial aid. The advice on completing these applications is basically the same: accuracy, completeness, legibility, and timeliness are all very important.

College applications

Many colleges have their own applications which students must complete in addition to an FAF or other form. When you are checking the requirements of the various colleges and universities you are considering, make sure you know whether you must also complete separate applications for each college. This information, along with information about deadlines, is available in the college catalog or bulletin.

A college's financial aid application is not the same as the admissions application, although you send them in at approximately the same time. You do not need to wait until you have been accepted for admission to apply for financial aid. In fact, if you *do* wait, you could find that the money is all gone. Follow the rules specified by the college in its catalog or other materials.

Guaranteed Student Loans

If you are applying for a Guaranteed Student Loan (GSL), you will have to complete a separate application for this program. Applications are available from eligible participating lenders, from colleges, and from guaranty agencies. You should fill out the first section of the form with information about yourself, and then the college financial aid administrator completes another section that certifies your enrollment (or admission and prospective enrollment), academic standing, cost of education, and other financial aid. After both sections are completed, the application is taken (or sent) to the lender. If the lender agrees to make the loan, the application is sent on to the state guarantee agency or federal government for approval. It normally takes four to six weeks to completely process a GSL application, so give yourself plenty of time to get through the process.

If you have difficulty finding a lender willing to make a Guaranteed Student Loan, check with the college financial aid administrator—he or she may be aware of active lenders. Also, in some cases, the aid administrator can act in behalf of a state lending agency in either approving or recommending approval of a "loan of last resort." Lenders are prohibited by law from discriminating against loan applicants on the basis of race, sex, religion, national origin, marital status, or because an applicant receives public assistance or has exercised consumer rights. However, lenders can limit the number and amount of loans they make. Sometimes they also attach other requirements, such as being a customer or having a parent who is a customer.

You might also wish to contact United Student Aid (USA) Funds, a private nonprofit corporation based in Indiana (8085 Knue Road, PO Box 50827, IN 46250; telephone 800-428-9250). USA Funds guaranteed over $500 million worth of GSL loans in 1980 for students who were eligible but couldn't find a local bank willing to lend to them. USA Funds also guarantees student loans for the dependents of employers or members of various corporations and associations, such as General Electric, Mobil Oil, Air Force Aid, and the Navy Relief Societies.

State and state-authorized guaranty agencies can charge an insurance premium on Guaranteed Student Loans of up to 1 percent, and this amount is usually collected by the lender at the time the loan is disbursed to you (not earlier than 30 days before the beginning of the academic term). You will also be required to pay a "loan origination fee" (5 percent in 1981-82), which comes off the top of the loan. (*Note:* Pending federal legislation could change this program.)

State student assistance programs

Some states also have separate applications that must be completed by applicants for state student assistance programs. Your high school counselor, financial aid administrator, or the state student assistance agency can tell you whether you need to complete any separate applications. Most states, however, permit a student to use one of the need analysis documents as the application. If you live in such a state, make sure that you file the state-specific FAF or other need analysis document, and follow the instructions carefully for listing the state agency as one of the recipients of information from your FAF.

Private scholarship programs

Many private scholarship programs have their own separate applications that must be completed in addition to the FAF or other need analysis document. Details about the application requirements are provided by the sponsor. Sometimes these additional applications are fairly simple and straightforward; some programs require students to provide extensive biographical information, high school transcripts, essays, and/or other material as part of the application process.

Federal student aid programs

You do not need to complete a separate application for federal student aid if you are filing an FAF, FFS, SAAC, PHEAA form, or AFSA. Simply follow the directions for adding the federal government to the list of recipients of information from your need analysis document. There is no charge for using any of these five forms to apply for federal student assistance.

Additional information you may have to provide

In the course of applying for financial aid, you may be asked to provide additional information at various points in the process. For example, most colleges ask students to provide information to assist them in "validating" the data reported on the FAF or other need analysis document. Before actually disbursing money to students, copies of the parents' most recent tax returns may be requested. If different information appears on the tax return, the applicant's aid award may be adjusted. An aid recipient may refuse to provide such information, but the college in turn has the right not to provide money.

A student who receives funding under the College Work-Study program will be required to file a federal income tax withholding form (Form W-4) or withholding exemption form (Form W-4E) with the college before he or she can earn any funds.

A student who receives a National Direct Student Loan (NDSL) will be required to sign a promissory note for each loan advance. A copy of the promissory note and other loan information is provided to recipients in accordance with federal loan disclosure laws. Recipients may also have to provide additional information, such as a list of personal references.

Comply with all requests for additional information promptly, accurately, and legibly. The paperwork may seem like a nuisance, but remember that hundreds or even thousands of dollars are at stake. Don't blow your chances for financial aid by failing to provide the information someone needs to evaluate your situation.

Questions and answers about applying for financial aid

Q Must I be accepted for admission before I apply for financial aid? Must I be admitted before I receive financial aid?

A You should apply for financial aid at the time you apply for admission. Remember, too, that simply applying for admission is not the same as applying for financial aid. To receive aid, you must *apply* for aid; this means that you must file the FAF (or some other need analysis form). In some cases, you may also be required to submit a separate institutional or state application as well.

You will not actually receive aid until you have enrolled.

Q Is it necessary for me to apply for financial aid every year?

A Yes. At most colleges you must apply each academic year. But applying is almost always easier the second time around because there is less paperwork and you are familiar with the process.

Q I want to apply for scholarship only. Do I have to fill out the FAF?

A Check with the sponsor of the scholarship and/or the financial aid office at the institution to which you are applying. Find out what forms should be completed and when they are due.

Q How can I find out what the deadline is for applying for aid at the college I am interested in?

A Look for the deadline in Appendix 1 of this book or in the college's catalog. If you cannot find it there, ask the college's financial aid office. Be aware that many institutions have "priority filing dates," which you should meet if you possibly can. After that date, some aid may still be available; check with the financial aid office if you are applying later than the deadline or priority date given.

Q One college I'm applying to *requires* the FAF and another *requires* the FFS. Do I have to complete both need analysis forms?

A Contact the financial aid offices at both colleges, explain the situation, and see if both colleges would accept the same form. If neither college is willing to accept the other form, you will have to file both forms.

Q Will I have to file more than one need analysis form for aid?

A Because the FAF is accepted, preferred, or required by most postsecondary institutions, state agencies, and scholarship programs, most families that file an FAF will not be required to complete another need analysis form; however, students may have to complete an additional institutional or state application. Appendix 1 of this book lists the forms required by more than 3,200 institutions of higher education. Students should always consult the colleges and programs directly to make sure that they understand exactly what forms are required when.

Q My parents are divorced. Who should complete the FAF?

A The parent with whom you lived for the longest period in the last 12 months should fill out the FAF. If you didn't live with either parent, or lived with each parent for an equal number of days, the FAF should be filled out by the parent who provided for things like housing, food, clothes, car, medical and dental care, and college costs.

Q Can a college legally require each of my divorced or separated parents to fill out a need analysis document?

A The Pell Grant Program requires information only from the parent with whom you live. However, an aid administrator at a particular college can make his or her own decision about whether to require both parents to file the FAF or other need analysis forms when you are being considered for funds from programs that the institution administers. The current marital status and other obligations of the parent who doesn't have custody would be considered in this situation.

Q My parents are divorced, but the parent who qualifies and who must complete the FAF doesn't want to provide the necessary data. However, the parent who doesn't qualify is willing. What should I do?

A According to criteria established by federal programs, the qualifying parent *must* provide information or the student cannot receive a Pell Grant. However, for purposes of qualifying for aid administered by colleges, the aid administrator at the college may resolve the problem. The administrator may determine, for instance, that there are sufficiently adverse home circumstances that information from the responsible parent cannot be obtained and that information from the other parent is acceptable. This situation should be explained on your form.

Q My parents refuse to file an FAF or other documents. What should I do?

A In order to be considered for financial aid, you must file a need analysis form. However, aid administrators will sometimes consider special circumstances if they are documented by your clergyman, counselor, or social worker. You must realize that resources will be limited because no state or federal funds can be distributed without documented financial need. (You may also be asked to provide a notarized statement of parent nonsupport.)

Q I plan to start college in fall of 1983. Why do all the forms ask questions about my parents' income from *this* year when I need the money *next* year?

A 1982 is the last complete year for which your parents' income can be verified through tax returns. If your parents' income in 1983 will differ substantially from their 1982 income, explain this situation. The financial aid administrator may be able to take these special circumstances into consideration in making your award.

Q Is there any way that the IRS will find out how we answered questions on the FAF?

A The College Scholarship Service *does not* routinely provide information from the FAF to the IRS. The CSS will disclose your records only if the IRS subpoenas them as part of an investigation. The information that you provide on the FAF or other need analysis documents is shared only with the colleges and programs you list as recipients because you are seeking financial aid from them.

Q Should I attach receipts? Will anyone ever ask for receipts? Should I attach my IRS form 1040 to my FAF or other need analysis document?

A No. Don't enclose receipts. However, financial aid offices at colleges to which you apply may ask for documentation of unusually high expenses that occur during the academic year. It is more likely that they will request a copy of your tax returns to verify expenses that occurred in the prior calendar year. More and more colleges are requesting tax returns to validate information reported on documents such as the FAF. Do *not* attach a copy of your tax return to the FAF or other need analysis document. If a college or program wants to see your tax returns, send it directly to the address indicated.

Sample students

Worksheet 6: Financial aid awards

	Andrea
A. Total student budget	$3,380
M. Total family contribution	934
N. Demonstrated financial need	2,446
1. Pell Grant	942
2. State scholarship	
3. Institutional grant	
4. College Work-Study	1,004
5. National Direct Student Loan	500
6. Supplemental Educational Opportunity Grant	
7. Guaranteed Student Loan	
8. Private schloarships	
Total resources for college	$2,446

***Andrea** received a financial aid award offer that fully met her need from the community college. She received a federal Pell Grant, as well as a College Work-Study award (which she will "earn" by clerking in the campus library) and a National Direct Student Loan (which she will have to repay once she graduates or leaves schools). Although Andrea did not receive any private scholarships, she did identify several in her search for which she might be eligible once she becomes an upperclassmen. She found several possibilities, including some scholarships targeted specifically for engineering students and minority students; she has already started a file on such opportunities.*

	Beth
A. Total student budget	$4,410
M. Total family contribution	794
N. Demonstrated financial need	3,616
1. Pell Grant	1,418
2. State scholarship	300
3. Institutional grant	
4. College Work-Study	730
5. National Direct Student Loan	500
6. Supplemental Educational Opportunity Grant	650
7. Guaranteed Student Loan	
8. Private schloarships	
Total resources for college	$3,598

The financial aid award offer ***Beth*** *received very nearly met her demonstrated need, and included aid from a wide variety of sources. She received a large Pell Grant from the federal government, a scholarship from her state student assistance agency, and —because her family income is quite low—a Supplemental Educational Opportunity Grant. In addition, like almost all financial aid recipients, Beth will be expected to assume some "self-help aid," in the form of loans and work. In her case, she received a National Direct Student Loan, which she'll have to repay, and a College Work-Study award, which she'll "earn" working in the college cafeteria.*

	Carlos
A. Total student budget	$7,300
M. Total family contribution	2,667
N. Demonstrated financial need	4,633
1. Pell Grant	
2. State scholarship	
3. Institutional grant	500
4. College Work-Study	1,100
5. National Direct Student Loan	
6. Supplemental Educational Opportunity Grant	
7. Guaranteed Student Loan	2,500
8. Private schloarships	500
Total resources for college	$4,600

Even though ***Carlos'*** *family had the greatest resources among the three students, he also had the greatest need—because the college he wanted to attend had the highest costs. The financial aid award offer he received very nearly met his full need. Because his parents' income was higher than the average, he was not eligible for a federal Pell Grant or a Supplemental Educational Opportunity Grant. The college did award him a scholarship from its own scholarship fund, and in addition, he won a scholarship offered each year by his local Chamber of Commerce to a senior boy who demonstrates exceptional academic aptitude and leadership abilities. In order to fully meet his need, Carlos was also offered a large "self-help" award that included a College Work-Study assignment and a Guaranteed Student Loan.*

5. MAKING THE MOST OF YOUR OWN RESOURCES

What if a college can't give you any aid or can't give you enough to fully meet your need? Or what if your family can't come up with enough cash to cover the contribution a college believes you should be able to make? What if you decided to attend college late in the year and financial aid has already run out by the time you apply for admission? In an era of rising costs and declining aid resources, many students are likely to have a harder time meeting college costs in coming years.

Remember that colleges and most other student aid sponsors regard the student and his or her family as the primary source of funds for meeting the costs of education or training after high school. (There are rare instances where parents are considered unable to contribute anything whatsoever toward college costs, but even then, the student would be expected to contribute something from savings and summer earnings.) Financial aid is the most common approach to supplementing a family's resources, but it is by no means the only alternative. This chapter will describe some of the strategies that students and families have used to meet college costs. Not all of these ideas will be applicable to your unique family situation, of course, but perhaps one or two will provoke some creative thinking.

If there is a "silver lining" to the combination of rising costs and declining aid resources, it is that colleges are working harder than ever not only to contain the costs but also to develop new mechanisms to assist students and families in meeting the costs. This chapter also describes some of the ways that colleges are trying to help families finance education after high school. Not all of these approaches will be available at the particular colleges you're considering, but they're worth asking about.

Strategies for stretching your resources

Many students and families have used a variety of strategies for getting the most out of the resources they *do* have for meeting college costs. Some of these ideas may work for you, and some may make you angry! Families who have been hard-pressed by the last several years of double-digit inflation and increasing taxes may resent the suggestion that they could do more than they're already doing. This section describes some possible strategies for getting more mileage out of family resources.

Rearranging your personal finances

Few parents can cover the expected parental contribution from current earnings only, never mind bridge the gap that could be created by insufficient financial aid resources. To minimize the out-of-pocket expenses when the time comes to start paying college bills, you should start planning as early as possible.

For instance, you might want to think about how your current assets can be resources for paying educational bills. Ask yourself: What are they worth now? What are they most likely to be worth when I want to use them? You may want to talk to your banker, a financial adviser, or an investment specialist about the best way of "saving" for college given your financial situation. These professionals can offer you advice in financial planning for college based on your present situation, how much time you have left to save, and the risks involved in selecting certain financing alternatives.

The long-range approach

The earlier you start, the more time you have to arrange your personal finances to the greatest advantage. Fami-

41

lies with young children, for instance, should think about creating a regular savings plan against the day when their children start college. The "College Answer Plan" sponsored by Citibank is an example of this approach. Under this program, families make regular deposits to a savings account at interest rates that increase with the amount of the balance in savings; counseling and financial planning services are also part of the program. The Bowery Savings Bank offers a "PASS Account" Savings program that features high interest rates on funds deposited in the child's name in a custodial account. If savings are held in a custodial account, the interest earned is not taxed until the child receives the money. The child is then responsible for reporting the interest as income, but he or she is usually in a much lower tax bracket than the parents.

Trust funds are another approach to saving. Under a trust fund arrangement, parents can give money and other property to a trustee to invest and manage for a beneficiary (the child). An "irrevocable trust" is one in which only the child for whom the money is held can withdraw it, and then only at the age of majority (age 18, for example, when the child needs money for college). Such an approach reduces the parents income taxes because they are not required to pay tax on the trust's earnings; when the child withdraws the money, he or she is liable for taxes but is typically in a much lower tax bracket.

Investigate all of the features of the programs offered by banks in your area; some offer financial planning and counseling services in addition to the basic financial elements of the program.

More immediate options

Even if you have to start paying bills within the next year, it is worth your time to talk to your banker about your current savings and investment arrangements. Banks have never been more eager for your money or offered so many varieties of savings plans. The family with several thousand dollars in a 5 percent savings account is almost certainly not getting the most mileage out of its hard-earned money.

No college expects you to sell the family homestead to pay for education, but some colleges *are* becoming quite explicit about their expectations of families with assets. You may find that a college financial aid office wants to know your net return on investments, for instance. Others may suggest that you refinance the mortgage on your home. Others may inquire about the contribution that other members of the extended family (such as grandparents) might make to a student's educational expenses. Such observations from colleges may startle or even anger you, but they reflect a renewed emphasis on the family's central responsibility for financing education or training after high school.

Parent loan program. The Education Amendments of 1980 created a new financial resource for families—the Parent Loans for Undergraduate Students (PLUS) Program. Parents may borrow up to $3,000 a year to a total of $15,000 for each dependent child. The current interest rate is 14 percent, and repayment begins within 60 days after disbursement and may extend up to 10 years. The federal government subsidizes the interest rate so that it still falls below current market rates; the government also guarantees repayment of the loans in the event of death or disability. (*Note:* Pending legislation could change this program.)

Because repayment must begin within 60 days, PLUS loans are primarily assistance in meeting the cash flow problems caused by college bills. Parents are the borrowers under this program rather than students (as is the case with the GSL and NDSL programs) and may borrow without regard to demonstrated financial need. The primary qualification for participation in the program is the ability to repay the loan. Some parents borrow under the PLUS program to meet all or part of the expected parental contribution, while others may borrow to make up the difference between costs and their contribution plus available financial aid.

PLUS loans are now available in about 13 states, and more states are expected to implement the program during 1982-83. You might want to find out whether your bank or other banks in your community are participating in this program.

Unsubsidized bank loans. A few banks and credit unions have created special educational loan programs with interest rates below the prevailing commercial rates or other features that make the loans more attractive than other consumer borowing options. Parents rather than students are usually the borrowers under such programs, and eligibility relates more to demonstrated capacity to repay the loan than to financial need. You may want to investigate the commercial loan possibilities in your community, but you may find that, until interest rates come down in general, banks are unwilling to enter into such arrangements, even with regular customers.

A variation on commercial loans is a line of credit against which checks can be made directly to the college; interest is charged only when and if checks are written. The Educhek program sponsored by Girard Bank in Philadelphia, for instance, is available to students from the Eastern Seaboard attending participating colleges.

Because these commercial loans options are not subsidized by state or federal government, families are likely to find them less attractive than GSL or NDSL loans. If you plan to borrow funds under *any* program, subsidized or unsubsidized, make sure that you understand exactly what your obligations are before you assume the responsibilities. (Chapter 6 contains some consumer advice about borrowing.)

Combination savings/loan plans. This approach to financing a child's education is not yet widely available, but some observers expect it to spread around the country. Under this plan, a participating bank will leverage or multiply a customer's balance to give a family a line of credit for meeting college costs that is in effect a long-term loan, with the interest on savings offsetting to a substantial degree the interest on the loan. One such plan developed by Students Financial Services, called the Tuition Reserve and Deposit Plan, has been implemented at the Citizens Bank of Dallas, Georgia, and is available nationwide. You might inquire about the availability of this or similar programs at banks in your community, or contact Students Financial Services, One Perimeter Way, Suite 501, Atlanta, GA 30339, for a list of participating banks.

College-sponsored financing programs. Many institutions of higher education participate in a tuition budgeting plan that permits families to spread out their payments over a longer period of time. Some colleges finance the programs themselves, while others participate in commercially available options. Because of the interest, insurance, and service fees involved in such programs, a family will typically end up spending more money than if the charges had been paid outright. However, for families with cash flow problems or insufficient reserves, such programs can make the difference between enrolling and not enrolling. Information about the options available at a particular college can usually be found in its catalog or financial aid bulletin; if you don't find it, ask.

Many colleges are creating new loan programs out of their own resources to assist students and parents. Some of the approaches are quite innovative. Beloit College in Wisconsin, for instance, has created a "moral obligation" scholarship program in which students receive funds that carry a moral, but not a legal, repayment obligation. Such an approach would permit students to repay their scholarships when they are out of college and working; since there would be no legal obligation to repay, the payments to the college as a nonprofit educational institution would be, in effect, tax-deductible gifts.

Other institutions are loaning money to students or to parents at lower interest rates than would be available in the commercial marketplace; some programs were specifically created to offset the loss of GSL funds to families who could not demonstrate financial need above the $30,000 adjusted gross income level. The College of Wooster in Ohio, for example, is introducing a new "Parent Installment Payment Plan" in fall 1982 that makes loans of up to $3,000 a year at 14.5 percent interest; the program is restricted to parents who earn more than $30,000 a year and is designed to offset the reduced GSL eligibility of families at upper income levels. Dickinson College in Pennsylvania has created a multi-million dollar parents loan fund and plans to keep interest rates about 3 percent below prevailing bank rates.

While many colleges and universities participate in tuition budgeting plans, most have not yet developed the more innovative programs described above. But as the innovators develop experience with the various approaches, more institutions can be expected to institute mechanisms to help families finance their children's education. Information about such opportunities at a particular college, if any, can usually be found in its catalog or financial aid bulletin.

Insured tuition plans. Some insurance companies have offered insured tuition budgeting programs for families for many years. Under such programs, parents make monthly payments to an insurance company based on the costs of education, and the insurance company in turn pays the tuition bill each semester. Insurance features on the plans guarantee the tuition will continue to be paid in the event of a parent's death. Some colleges offer variations of this plan, financed through their own resources. The Richard C. Knight Insurance Agency will introduce a plan in 1982-83 that combines prepayment with a low interest loan. Under such a plan, the family that has not paid in enough money to cover tuition will be eligible to receive a low interest, short-term loan for the difference.

In evaluating all such approaches, you should get all of the facts before you sign any contracts or promissory notes. You will probably also want to evaluate the return rate on the savings portions of such programs to insure that you are getting the best possible deal.

Strategies for cutting costs

In the absence of sufficient personal resources and financial aid, one obvious approach to financing a college education is to reduce the overall costs. There are many different ways to cut expenses, and your personal situation and ambitions will determine whether any of these approaches can work for you.

Reducing the time involved in earning a degree

By reducing the length of time involved in earning a degree, you can reduce the overall costs. (Reducing the amount of time you spend in education or training may also reduce your "foregone income," or the amount of money you could otherwise have earned if you were employed.) There are several approaches to cutting time, and thus cutting costs.

For instance, many colleges award advanced placement and/or academic credit to students who can demonstrate proficiency in college-level studies through examinations such as those sponsored by the Advanced Placement Program (APP) and the College-Level Examination Program (CLEP) of the College Board. Credit-by-examination means the number of courses required to earn a degree is reduced, so the overall costs are cut. As you investigate colleges, you may want to ask about credit-by-examination policies.

Some colleges also grant advanced placement and/or academic credit to students who can demonstrate proficiency because of prior independent study and "life experience." A student might demonstrate particular competencies or skills, for example, by compiling a portfolio that documents prior learning experiences. College requirements for documenting prior learning tend to be quite rigorous, but if you can meet them, you can reduce both your time and your financial investment. (You may find that the approach is less commonly available than credit-by-examination options. You may also find that some colleges offering such opportunities restrict their use to older, "nontraditional" students who have spent several years in working or raising a family.)

Some students also compress the time required to earn their degree by taking more courses than the average student and/or attending summer school. (Obviously attending summer classes will cut down on your ability to work during the summer to earn money for college.) Some students successfully complete a bachelor's degree in less than four years, thus reducing their overall costs, but this clearly requires a high degree of motivation. You may want to ask colleges you're considering whether it's possible to earn a degree in less than four years, since some colleges have policies limiting the number of credits a student can carry per semester.

Sometimes students can earn some college credit without actually attending classes, thus reducing transportation and possibly some living expenses. (This approach would also allow a student to work and save for full-time attendance later.) Check with the colleges you're considering if this idea appeals to you.

Reducing indirect costs

Living at home instead of on campus has helped many students reduce their overall costs. Some students live at home and commute to campus for the entire course of their studies, while others alternate between living in college housing (or off-campus private housing) and living at home with their families.

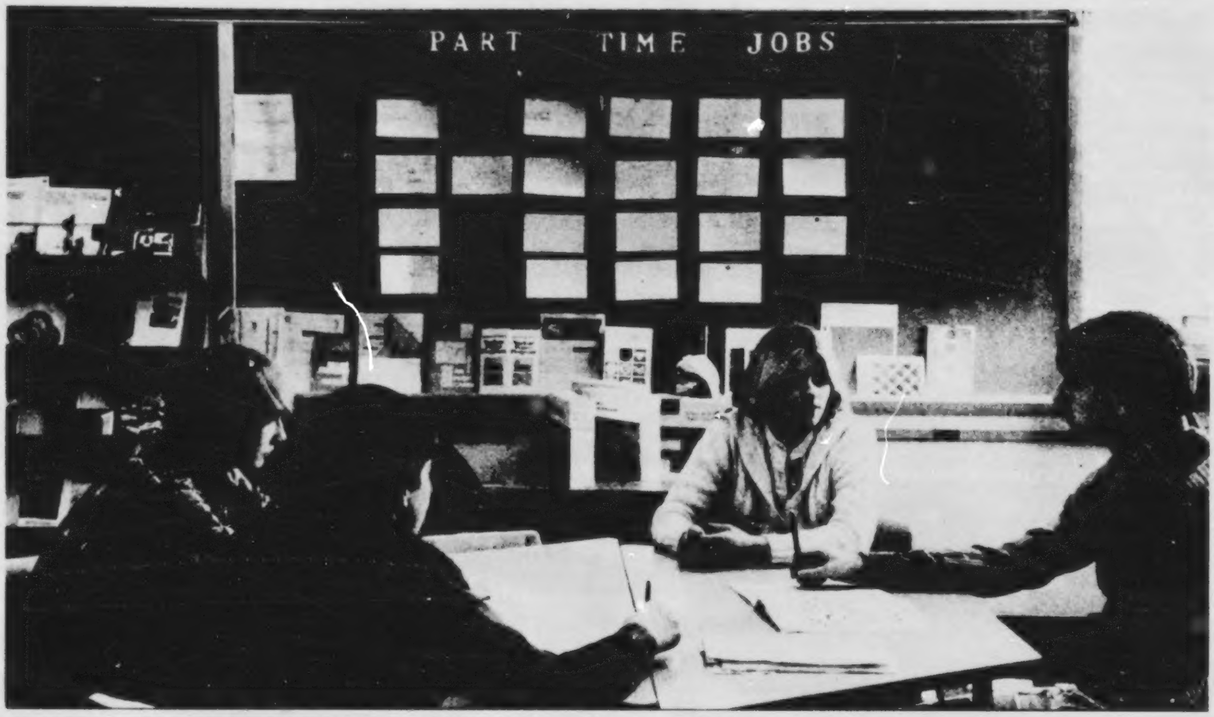
Other students elect to attend a local, lower-cost college (such as a community college) for the first two years and then transfer to a higher-cost public or private college to complete their degrees.

Dormitory residents at some colleges have also discovered that savings can be achieved in the choice of college-sponsored meal plans. Investigate carefully the options open to you before you select a particular meal plan.

Some students work in return for room and board. For example, the Student Housing Exchange in Boston seeks to match students who can give 15 to 20 hours a week in household services to families who provide room and board in return. Information about similar opportunities is often available through a college's placement or student affairs office.

Students at many colleges have banded together to provide services for each other that can reduce both their direct educational expenses and their living expenses. The range of student-sponsored services is enormous and well worth investigating as part of your college search process. Second-hand book shops enable students to reduce textbook expenses. Food co-ops enable residents in private off-campus housing to cut their food bills and still get adequate nutrition. Daycare programs provide help to students with dependents of their own. Revolving emergency loan funds can provide short-term financial assistance. Housing referral services or guides can help students to locate private housing, while tenants organizations protect and advocate their rights with landlords. Entertainment pro-

44



Look for the job placement office and/or bulletin board at the college you plan to attend to find out about employment opportunities.

grams are specifically designed to provide free or low-cost recreation to students living on a budget.

College administrators, too, have instituted programs at many institutions, usually in conjunction with the student affairs or financial aid offices. The financial aid office may conduct workshops on money management, for instance, or the student activities office may issue guides to low-cost housing and shopping in the community. As the effects of rising costs and declining aid begin to be felt more widely, the number and range of such programs to help students live on a tight budget can be expected to grow.

Prepayment plans

You can expect increases in tuition charges at least once, and probably annually, during your enrollment in a particular college. One innovative approach to reducing overall costs has been instituted by Washington University (Missouri) and Case Western Reserve University (Ohio). Under this program, families can prepay tuition for four years in one lump sum and escape subsequent tuition increases. For families who cannot pay the entire sum at once, both colleges offer a borrowing option whereby payment is made in monthly installments over a period of years. Taking advantage of such programs can reduce your overall expenses quite substantially, so it's worth inquiring about them as you investigate colleges.

Strategies for working your way through

Working your way through college is certainly possible, but it's not easy, particularly if you want to attend college on a full-time basis. The problems include both money and time. Educational and living expenses are sufficiently high to make it difficult to earn enough money to cover them fully while maintaining a full course load. But here again, there are a variety of approaches to working your way through; one or more of them may work for you.

Part-time employment

Some students find that they can earn enough money through part-time employment to meet their costs. Many students work part-time while enrolled full-time, and find that a part-time job does not hamper their studies. The College Work-Study Program described in Chapter 3 provides employment opportunities for many students with demonstrated financial need. Other students work in jobs, on or off campus, that they find themselves.

Some colleges are instituting special programs to help students find part-time employment. For instance, Johns Hopkins University in Baltimore is developing a job program in cooperation with the local business community. The University of Montana plans to use part-time student workers to fill vacancies as they occur among full-time clerical positions. The University of Texas has instituted a 24-hour "job hotline" that students can call to get information about part-time job opportunities.

You should begin lining up summer job prospects as soon as you are old enough to work. You might also think about acquiring and cultivating skills that will be useful in finding part-time jobs to help finance your education. As you investigate colleges, you may want to inquire about the availablity of part-time jobs on and off campus. Admissions recruiters, financial aid counselors, and job placement counselors may be able to give you some clues about the kinds of jobs most frequently available. If you're visiting a college, pick up copies of the student newspaper as well as local newspapers to check out the want ads.

You might be able to tailor some of your pre-college courses or summer job experiences to improve your chances in the job market once enrolled. For example, if there's a typically heavy demand for term paper typists at the college you're aiming for, it may be worth your while to take an elective course in typing and acquire a portable typewriter. If there are usually openings on campus and in the community for experienced waiters and waitresses, that might be useful to know when you're looking for summer and part-time jobs in high school.

Unless you have truly unusual and marketable skills, part-time work is not likely to earn you enough money to cover all of your expenses, but, depending on your overall costs and your family's ability to contribute toward your education plus financial aid, you may be able to cover the difference through part-time employment.

Cooperative education

Other students have found that alternating periods of full-time employment and full-time enrollment works best for them. Many colleges have even formalized such arrangements through "cooperative education" programs. In cooperative education programs, students alternate semesters of academic enrollment with semesters of full-time employment, usually in jobs directly related to their field of study. In addition to helping them finance their studies, cooperative education programs give students a chance to develop concrete job skills and experience that enhance their employability after graduation. Nearly 850 colleges and universities across the country offer some form of cooperative education opportunities; inquire about the possibility at the colleges you're considering.

Deferred enrollment

Some students take a year or two off before going to college to get some money in their pockets. Some colleges have formalized this, too—it's called "deferred enrollment." You're accepted, but you don't actually start going to college until the following year. You might keep this in mind as a question to ask about the various colleges you investigate.

Employee fringe benefits

Some students decide to work full time and attend college part time at their employer's expense. Many employers offer educational opportunities as fringe benefits. Sometimes workers are reimbursed, in whole or in part, for successfully completed course work; other programs pay tuition expenses upfront. (Keep in mind that some educational expenses are also considered tax deductible; check with the Internal Revenue Service about the criteria.)

Managing your time if you work

Surprisingly enough, studies have shown that students who work part-time do not usually seem to suffer academically for the time they put into their jobs. Some studies have indicated, in fact, that students who work part-time achieve higher grade averages than their nonemployed fellow students. For most students who work, the discipline required to juggle their responsibilities and manage their time effectively pays off in academic work, too. (At the same time, some colleges try to minimize the necessity of part-time work for some groups of students, particularly freshmen, in order to ease their transition into college life.) Some students also like the opportunity to develop employment experience in anticipation of job hunting after graduation.

6

6. Tying Up Loose Ends

Most of this book has been about how you interact with other people and agencies and institutions in the process of planning to pay for college. (That's partly because most of this book has been about getting other prople's help for meeting college costs!) You have read about *guidelines*—for estimating costs, for demonstrating need, for determining eligibility. You've learned about *questions* you'll be asked—questions about your income and your assets and your hopes and your needs. You've heard about *decisions*—how colleges and the federal government and state student assistance agencies and private scholarship programs make them.

In the end it comes down to the student and his or her family. There are a lot of people who will help you pull together a personal financing strategy or get financial aid or offer you advice. But advice is cheap—college isn't. At some point in the process (the earlier the better), you need to develop your own guidelines, ask yourself some questions, and make some personal decisions.

Understanding financial aid awards

On the next page you'll see a sample financial aid award letter. In mid-spring of your senior year of high school, you will begin to receive notices from financial aid administrators at the colleges to which you have applied. Most selective institutions tell you about their admissions and aid decisions at the same time, often around April 15. Other institutions may have a "rolling" admissions schedule—that is, they make admissions decisions as soon as applications are complete—and use either a "rolling" or a fixed schedule for telling admitted students about their financial aid awards.

Because of uncertainties about federal student aid funding in the last couple of years, many colleges have been forced to issue tentative or preliminary award notices in the spring which are subsequently confirmed in the summer when more information becomes available. In such a circumstance, a college will try to meet its original commitment to a student, but if federal funds are reduced, the college may have to adjust the original award offer. The colleges find this process just as frustrating as do families, but in a time of uncertainty, it may simply be unavoidable.

Comparing award offers

If you are considering more than one college, you may want to compare the financial aid awards offered by the colleges. Resist the temptation to look only at the bottom line! College A may offer you $1,500 and College B may offer you $3,000. You need to look at what College A and College B cost before you can determine which award comes closer to meeting your need. The smaller award from College A may be all the extra help you need to attend, while the award from College B isn't enough to bridge the gap.

Here are some points to consider in comparing financial aid awards:

- What is the budget that the college used in determining your award offer? Does it coincide with your estimated budget for that college, as discussed in Chapter 1?
- What has the college determined that you and your family can be expected to pay towards college costs, as discussed in Chapter 2?
- How much of your need is met at each college—costs minus family contribution—as discussed in Chapter 3?
- What portion of each financial aid package is made up of "gift aid" (scholarships and grants) and what consists of "self-help aid" (loans and work), as discussed in Chapter 3?
- Which college would you most like to attend from an educational standpoint? From a financial standpoint, is this college also your best choice? If not, is the aid offered sufficent to permit you to attend?

Accepting a financial aid award

After you have received award letters from the colleges to which you have applied and have compared the offers, accept the award at the college you choose by signing the award letter. Complete and return any additional forms that were sent with the award letter. Also notify the other colleges that you are declining their aid offers, so that the funds can be distributed to other students.

If you have any questions about your award, contact the financial aid office at the college. Sometimes revisions in the composition of your award package are possible. For example, you may be able to shift a loan to a work opportunity, or you may be able to replace part of your parents' contribution with a Guaranteed Student Loan. You are usually not required to accept the entire financial aid package as offered. But if you decide not to accept a part of your aid offer, it may not be possible for the financial aid office to make up the aid later if you change your mind.

Particularly in a time of declining resources, you should understand that if you need financial aid to meet college costs, you will almost certainly have to accept some of that aid in the form of "self-help" aid—that is, loans and/or jobs—during the course of your education. Many colleges gradually increase the self-help portion of a student's financial aid package over the four years they are enrolled, so you cannot necessarily expect the same package every year, even if your need is the same. For instance, some colleges try to minimize the College Work-Study awards offered to freshmen so that they can devote more time to studying and adjusting to college life, but they replace some of the grant aid in their packages with jobs in subsequent years.

Appealing your award package

If you believe that your financial aid package is insufficient to meet your needs, you may want to contact the financial aid office at the college. Inquire about how your expense budget was put together and how your family contribution and financial need were determined. If there are special circumstances that you think have been overlooked, call these to the aid administrator's attention. It may be that the aid administrator can take your particular situation into account and adjust your award offer.

After visiting with the aid administrator, if you still feel that you have unmet needs or that you have been treated unfairly, you may want to consider appealing your award. Some colleges have a formal administrative procedure with a review board to hear your appeal; others have a much less formal process—usually the award decision is reviewed by the aid administrator's superior to see that institutional policies have been followed. Contact the financial aid office to find out what the appeal procedures are, and follow them.

Understand, though, that a college's inability to meet your full need probably reflects nothing more than insufficient funds. There has never been enough aid to fully meet the needs of all the students who could use some extra help, and when this book was written, resources were shrinking, not expanding. You have a right to a full explanation of a college's policies and practices with regard to determining need, eligibility, and priorities for distribution of funds, and a college will probably be happy to provide you this information. The answers to your questions will not necessarily provide the answers to your financial problems. (You may want to refer back to Chapter 5 for some ideas on getting the most mileage out of your own resources.)

Responsible borrowing

As costs rise and financial aid resources get tighter, fewer and fewer students will be able to escape the necessity of borrowing some amount of money to complete their education.

Whether you are borrowing from a government-subsidized loan program or a commercial lending institution, you should take the time to educate yourself about loans before you actually have to apply. The worst possible time to start learning about loans is when you're in the midst of looking for one!

Understand the language

First, know your terms. The amount of money you borrow is called the *principal*. When you pay back a loan, you pay both the principal and the *interest*—the service charge you pay for borrowing someone else's money. Interest is expressed in terms of a percentage.

When you're investigating different loans look for the *simple interest rate* on your loan. The lender is required by law to tell you this rate. In the past, some lenders have been unclear by talking in terms of "*compounded monthly interest*." A 1½ percent monthly compounded interest may sound like a better deal than a 10 percent annual interest, but spread out over one year, that 1½ percent compounded monthly comes to nearly 18 percent.

NEW YORK UNIVERSITY
OFFICE OF FINANCIAL AID

Financial Aid Award Statement

ACADEMIC YEAR: 1982-83

SCHOOL: WSUC
STUDENT TYPE: NEW TRANSFER
SOCIAL SECURITY NO. (I.D. NO.): 123-45-6789
AWARD DATE: 06/03/82
REPLY DATE: 06/18/82

NAME AND ADDRESS
JOHN Q STUDENT
20 PIERREPONT STREET
BROOKLYN NY 11201

AWARDS BASED ON FEDERAL FUNDS ARE CONTINGENT ON FINAL GOVERNMENT ALLOCATIONS

WE ARE PLEASED TO INFORM YOU ABOUT THE FOLLOWING FINANCIAL AID AWARDS

AWARDS	ACCOUNT NO.	$ AMOUNTS FALL	SPRING	TOTAL
WSUC SCHOLARSHIP	2-199-591-TRF	1170	1170	2340
RECOMMENDED ACADEMIC YR EARNINGS				1350
TOTALS		1170	1170	3690

YOU MUST SIGN THE REPLY SHEET (FRONT AND BACK) AND RETURN IT TO THIS OFFICE
AWARDS MARKED WITH "*" REQUIRE A SEPARATE APPLICATION
OTH: $35 OVERAWARD CARRIED OVER FROM 81-82.
EXTERNAL AID ONLY; NYU AID DECISION STILL IN PROCESS
PLEASE RETURN ITEMS NOTED ON THE ENCLOSED GREEN CHECKLIST

WHEN NEED WAS A FACTOR IN OUR DECISION WE USED THE FOLLOWING ANALYSIS OF YOUR RESOURCES

<<<------ FAMILY RESOURCES ------>>>		<<<--- EXTERNAL FINANCIAL AID --->>>	
PARENTAL CONTRIBUTION	$ 0	*ESTIMATED PELL GRANT (BEOG)	$ 1670
STUDENT / SPOUSE EARNINGS	0	*ESTIMATED NY STATE T.A.P.	1600
STUDENT ASSET CONTRIBUTION	0	REGENTS COLLEGE SCHOLARSHIP	0
STUDENT BENEFITS	0	*OTHER OUTSIDE AID	35
EXPECTED SUMMER SAVINGS	900		
TOTAL FAMILY CONTRIBUTION	$ 900	TOTAL EXTERNAL AID	$ 3305

TOTAL RESOURCES $ 4205

YOUR BUDGET WAS DEVELOPED FROM THE FOLLOWING ASSUMPTIONS:
RESIDENCY : COMMUTER
DEPENDENCY : DEPENDENT
MARITAL STATUS : SINGLE
ENROLLMENT : FALL-12 PTS
: SPRG-12 PTS
GRADUATION DATE: 06/85

SUMMARY OF FINANCIAL NEED & AWARDS

TOTAL ESTIMATED BUDGET	$ 9244
LESS: FAMILY CONTRIBUTION	- 900
LESS: EXTERNAL AID	- 3305
EQUALS FINANCIAL NEED	$ 5039
TOTAL FINANCIAL AID	$ 3690

*WE SUGGEST A GUARANTEED STUDENT LOAN FOR REMAINING NEED OF $1340

DIRECTOR OF FINANCIAL AID: OLLIE S. BRYANT
DATE: 06/03/82

READ THE ENCLOSED FINANCIAL AID BROCHURE CLOSELY

TO ACCEPT ALL OR ANY PART OF THIS FINANCIAL AID AWARD, COMPLETE THE ATTACHED YELLOW REPLY SHEET AND RETURN IT TO THIS OFFICE BY THE REPLY DATE LISTED ABOVE. RETAIN THIS COPY FOR YOUR OWN RECORDS. THIS STATEMENT SUPERCEDES ANY PREVIOUS STATEMENT ISSUED BY NEW YORK UNIVERSITY.

FORM NO. FA08 (3/80)

STUDENT COPY

A *co-signer* or *co-signatory* is a person who signs for your loan with you. Many lenders, particularly banks, may require your parents to sign for a loan even if you are the person who is doing the borrowing. If you default—fail to repay your loan—the co-signer is legally responsible for the debt. A *promissory note* is another name for a legal agreement or contract you sign when you're borrowing money.

The *loan officer* is the person you'll be dealing with at the bank or other lending institution. You will be required to provide information about yourself on a *loan application* of some sort; the information you report will be checked out before a loan is made to you, and you should be aware of the penalties for providing inaccurate or misleading information on a loan application before you sign it.

A *lending institution* can be a bank, a savings and loan association, a credit union, a finance company, or colleges and universities themselves. The rules and conditions for loans offered by these various types of lending institutions will vary considerably. *Subsidized loans*—such as the National Direct Student Loan, Guaranteed Student Loans, and some loans from private philanthropic organizations—are loans backed by a guarantor; they usually have a lower interest rate or other more favorable features than *unsubsidized or commercial loans*. A *guarantor* is an agency or organization that agrees to pay the loan if a student defaults; state agencies, authorized organizations (like United Student Aid Funds), and the federal government are the most typical guarantors.

Understand what you're doing

Before you sign on the dotted line, you and your family should ask yourselves some questions.

- Do you really need to borrow? Have you exhausted other alternatives?
- How much money do you and your family need to borrow?
- How big a debt can you or your family responsibly handle out of your current cash flow? Out of your future earnings?
- How long do you need to repay the amount you need to borrow?
- How much debt are you already carrying? Can you handle more?

Whether you are borrowing a subsidized government loan or a commercial loan, you should know the answers to all of these questions before you commit yourself:

- What is the simple interest rate?
- When will you have to begin repayment?
- How large will the monthly payments be, and how long will you be paying back the loan?
- Are there any extra charges involved in borrowing the money? For instance, you may have to pay an "origination fee," service fee, or insurance charges up front.)
- Are there any restrictions?
- Can the lender terminate the loan, and under what conditions?
- Do you have to be notified before cancellation?
- Can you terminate the loan before the contract is up? How much notice must you give the lender? Are there any prepayment penalties, such as additional costs for paying the loan off early?
- Does the loan agreement contain a "balloon clause" —one payment, usually larger than the rest, which is tacked onto the end of the contract? (Sometimes borrowers can't afford to pay this larger sum when the time comes, and must get their loans refinanced.)
- Does the contract include a clause allowing "wage assignments" or "garnisheeing?" Such a clause allows the lender to ask your employer to take out a specified sum from your monthly earnings and send it to the lender if you default on your loan for any reason, and without any legal procedure. Most banks have eliminated such clauses from their loan contracts, and you should avoid any contract with such a clause.

Before you sign any contract or promissory note, make sure you understand what it is all about. If something is unclear, don't be embarrassed to ask for an explanation. You have a right to seek outside counsel and advice before entering into any binding legal agreement.

Your rights and responsibilities

Education or training after high school requires an investment of time, money, and energies. Some people think of students as consumers, and feel that students, like other consumers, have both rights and responsibilities. The federal government has outlined a series of rights and responsibilities that you may want to keep in mind as you develop a personal financing plan and pursue financial aid opportunities.

Student rights

You have a right to receive the following information from a college:

- What financial aid is available including information about federal, state, and institutional programs.
- What the deadlines are for applying for each kind of aid.
- What the cost of attendance is, and what the refund policies are if you withdraw.
- What criteria the college uses to select aid recipients.
- How the college determines your financial need—including how student expenses are figured in your budget.
- What resources—such as parents' contribution, other financial aid and benefits, assets, etc.—are considered in determining your need.
- How much of your financial aid has been met.
- What aid resources make up your financial package.
- What parts of the aid received must be repaid and what part is grant aid.
- If you receive a student loan, what the interest rate is, what the total amount is that must be repaid, what the procedures are for paying back the loan, how long you have to repay, and when repayment is to begin.
- What the procedures are for appealing a financial aid decision if you feel you have been treated unfairly.
- How the college determines whether you are making satisfactory academic progress, and what happens if you are not.

Student responsibilities

You have a responsibility to:

- Review and consider all information about a college's program before you enroll.
- Pay special attention to your application for student financial aid—including completing it accurately and submitting it on time to the right place. (Errors can delay your getting aid, and intentional misreporting of information is a violation of law subject to penalties under the United States Criminal Code.)
- Return all additional documentation, verification, corrections, and/or new information requested either by the financial aid administrator or the agency to which you submitted your application.
- Read and understand all forms that you are asked to sign, and keep copies of them.
- Accept responsibility for all agreements signed by you.
- If you receive a loan, notify the lender of any change in your name, address, or school status.
- If you are assigned student employment, perform in a satisfactory manner the work that is agreed upon in accepting the aid.
- Know and comply with the deadlines for applying and for reapplying for aid.
- Know and comply with your college's refund policies and procedures.

Developing your personal financing strategy

It's trite but true: where there's a will, there's a way.

No matter what you've heard from other people, no matter what you've read in the newspapers or heard on the news, no matter how scary the tuition figures or the rules or the application procedures described in this book seem to you, *a college education is not beyond the reach of any qualified, motivated student in this country.*

The cutbacks in government-sponsored financial aid may mean that you don't get as much assistance as you'd hoped to, and you may have to hustle to get the help you need. You and your family may have to sacrifice more than you'd expected to attend the college of your choice. *But you can do it.*

The importance of goal-setting is graphically illustrated by a study performed by the Social Security Administration a few years ago. The study had nothing to do with paying for college, but a lot to do (or so it turned out) with the value of planning. The purpose of the study was to find out whether the average citizen was in better shape financially at 65 than at 25. Most people would probably assume that the older worker, with 40 years in the job market to earn and save, was generally better off than the younger worker, just starting out. The results showed the reverse. Only 5 percent of the men studied were comfortable and secure, financially speaking. In analyzing what the 5 percenters had in common, several characteristics emerged. One important characteristic was *planning*—setting concrete goals, developing strategies and timetables for achieving them, periodically measuring their progress towards them, and continually revising and expanding their goals.

At the end of this chapter is a checklist. You may find it helpful in developing a personal financing plan. If you find it too elaborate for your purposes, simply write your goals down on a piece of paper, and refer to it occasionally. *Writing goals down on paper helps to make them real.*

The College Scholarship Service wishes you well in your planning, and looks forward to serving you again when the time comes for you to apply for financial aid.

Financial aid checklist

☐ **Develop a list of colleges that interest you** and that seem to match your educational and career goals. You may want to use a comprehensive guide, such as *The College Handbook* or *Index of Majors*, to help you do this.

☐ **Write to the admissions office** at each college on your list for an admissions application form. Remember also to inquire about financial aid opportunities and application procedures. It is best to do this early in the fall of your senior year of high school.

☐ **Make certain you know what need analysis form to file.** The two most commonly used forms are the Financial Aid Form (FAF) of the College Scholarship Service and the Family Financial Statement (FFS) of the American College Testing Program. You can get one of these forms from your high school guidance office or a college financial aid office. The documents are generally first available in November, but they should not be filed until after January 1.

☐ **Mail your completed need analysis form as soon after January 1 as possible.** The form should be sent for processing at least four weeks before the earliest financial aid deadline set by the colleges or state scholarship or grant program to which you are applying (but no earlier than January 1). Carefully follow the instructions for filling out the form. Make sure your answers are complete and correct.

☐ **Apply for federal student financial aid.** You can use the FAF or FFS to apply for federal assistance programs simply by checking the appropriate box on the form. There is no extra fee for this service.

☐ **Apply for a state scholarship or grant.** In many states your need analysis form can also be used to apply for state aid. Your guidance counselor should know whether you can apply in this way or whether you must fill out additional application forms. Find this out well in advance and make certain you file the appropriate forms by the deadlines.

☐ **Supply additional information promptly.** If you or your parents receive requests for additional information about your need analysis form, respond promptly so that there will be no further delay in processing your request for aid.

☐ **Review the acknowledgment you get back.** After submitting your need analysis form, you will receive an acknowledgment listing the colleges and programs you indicated should receive information from your need analysis form. Make certain that all entries on the acknowledgment are correct.

☐ **Review your award letters carefully.** The director of financial aid at each college and scholarship program is responsible for determining a student's need, knowing which funds a student is eligible for, and making a decision about who will receive financial aid and how much. Once that decision is made, you will receive an award letter describing the contents of your financial aid package and outlining any conditions attached to the award.

☐ **Check to see if other financial aid application forms are required** by the colleges to which you are applying and find out the deadline dates for each. Complete these forms as early as possible.

☐ **Check with your guidance counselor, high school library, and public library** for books and pamphlets about other aid sources. Follow the directions for applying. You may be qualified for a private scholarship, grant, or loan program because of your:

- academic achievement
- religious affiliation
- ethnic or racial heritage
- community activities
- hobbies or special interests
- organizational memberships
- artistic talents, athletic abilities, or other special skills
- career plans or proposed field of study

☐ **Find out if your parents' employers, professional associations, or labor unions sponsor any aid programs.**

☐ **Investigate community organizations and civic, cultural, and fraternal groups** to see if they sponsor scholarship programs at the local, state, or national level. Also check with local religious organizations, veterans' posts, businesses, and industries.

☐ **If you are, or if either of your parents is a military veteran, you may be eligible for special assistance.** Contact the nearest office of the Veterans Administration for information.

☐ **Contact the Social Security Administration** to find out if you are eligible for education benefits from the Social Security Administration if either parent is deceased, disabled, or retired.

☐ **Ask about benefits from vocational rehabilitation or other social service agencies** if you think you qualify for assistance.

☐ **Pay close attention to award notices from state and federal student financial aid programs.** Forward a copy of your federal Student Aid Report to the colleges to which you are applying so that they can take this information into consideration in putting together a financial aid package for you.

☐ **Learn how the payments from each aid source will be made.** Generally, payment of financial aid awards is made at the time you actually enroll. Also find out if there are additional procedures you should tend to or forms you must fill out in order to receive aid.

☐ **Explore alternatives.** If the college of your choice cannot provide you with enough aid to meet your full financial need, or your family cannot contribute what is expected of it, you may want to consider borrowing. If so, educate yourself about loans. Learn about interest rates, repayment schedules, and other terms and conditions related to loans—*before* you apply. Government-sponsored loans, such as the Guaranteed Student Loan Program, usually have the lowest interest rates and most flexible repayment arrangements. If you do apply for a Guaranteed Student Loan, give yourself enough lead time in having the loan papers processed—usually at least six weeks.

☐ **Make a decision about which college to attend on the basis of your education and career goals.** Remember to notify the college whose offer you are accepting, and to communicate your decision to other colleges so that the financial aid they reserved for you can be freed for other applicants.

Glossary

The definitions given here of terms commonly used by colleges to describe their programs, admissions procedures, and financial aid policies are necessarily general. Students should consult the catalogs of specific colleges and financial aid programs to get more detailed and up-to-date descriptions of their programs and procedures.

Accelerated program. A college program of study completed in less time than is usually required, most often by attending in summer or by carrying extra courses during the regular academic terms. Completion of a bachelor's degree program in three years is an example of acceleration.

ACT. *See* American College Testing Program Assessment.

Advanced placement. Admission or assignment of a freshman to an advanced course in a certain subject on the basis of evidence that the student has already completed the equivalent of the college's freshman course in that subject. In some cases the college also grants academic credit for the college-level work that has been completed.

Advanced Placement Program (APP). A service of the College Board that provides high schools with course descriptions in college subjects and Advanced Placement Examinations in those subjects. High schools administer the examinations to qualified students, who are then eligible at many colleges for advanced placement, college credit, or both on the basis of satisfactory grades.

AFSA. *See* Application for Federal Student Assistance.

American College Testing Program Assessment (ACT). Test battery of the American College Testing Program, given at test centers in the United States and other countries on specified dates throughout the year. It includes tests in English usage, mathematics usage, social studies reading, and natural sciences reading.

APP. *See* Advanced Placement Program.

Application for Federal Student Assistance (AFSA). The form distributed by the federal government for use by students applying for Pell Grants and federal campus-based aid.

Bachelor's degree. The degree given for completing undergraduate college programs that normally take four years. Also called the baccalaureate degree.

Campus-based programs. The three federally funded student financial aid programs that are directly administered by colleges—Supplemental Educational Opportunity Grants Program, National Direct Student Loan Program, and College Work-Study Program.

Candidates Reply Date Agreement. A college subscribing to this agreement will not require any applicants offered admission as freshmen to notify the college of their decision to attend (or to accept an offer of financial aid) before May 1. The purpose of the agreement is to give applicants time to hear from all the colleges they have applied to before they have to make a commitment to any one of them.

Certificate. An award for completing a particular program or course of study, sometimes given by two-year colleges or vocational or technical schools.

CLEP. *See* College-Level Examination Program.

College-Level Examination Program (CLEP). A service of the College Board that provides examinations in undergraduate college subjects and courses so that students and other adults may show college-level achievement for which they have not previously received college credit. The examinations are used by colleges to evaluate the status of adult applicants who have not attended college (or have not done so recently), students transferring from other colleges, and entering freshmen. They are also used by businesses, industries, government agencies, and professional groups to satisfy education requirements for advancement, licensing, admission to further training, and other purposes.

College Scholarship Service (CSS). A service of the College Board that assists postsecondary institutions, the federal government, state scholarship programs, and other organizations in the equitable distribution of student financial aid funds. By measuring a family's financial strength and analyzing its ability to contribute to college costs, CSS need analysis services offer a standardized method of determining a student's need.

College Work-Study Program (CWSP). A federally sponsored program that provides jobs for students with demonstrated financial need. Students typically work ten to fifteen hours a week during the academic year (and more during vacation periods), and are paid at least the federal minimum wage. Students employed through CWSP may work for colleges as well as public and private nonprofit organizations. Pending legislation could affect this program.

Consumer Price Index (CPI). A measure of inflation or deflation at the consumer level, updated monthly by the U.S. Bureau of Labor Statistics. The index is based on a "market basket" approach to the price of food, shelter, clothing, transportation, and other items for urban consumers.

Cooperative education. A college program in which a student alternates between periods of full-time study and full-time employment in related work. Students are paid for their work at the prevailing rate. Typically, five years are required to complete a bachelor's degree program, but graduates have the advantage of having completed about a year's practical experience in addition to their studies. Some colleges refer to this sort of program as work-study, but it should not be confused with the federally sponsored College Work-Study Program.

Credit by examination. Academic credit granted by a college for a student's having demonstrated proficiency in a subject as measured by an examination.

CSS. *See* College Scholarship Service.

CWSP. *See* College Work-Study Program.

Dependent student. A student dependent on his or her parents for financial support. For financial aid purposes, a student is classified as dependent unless the strict definition of self-supporting status is met in all respects.

Early decision. Early decision admission plans are offered for applicants who are sure of the college they want to attend and are likely to be accepted by that college. An early decision admission application is initiated by the student, who is then notified of the college's decision earlier than usual—generally by December 15 of the senior year.

Early Decision Plan. Colleges that subscribe to this plan, which is sponsored by the College Board, agree to follow a common schedule for early decision admission applicants. Colleges may offer either of two plans. A student applying under a first-choice plan must withdraw applications from all other colleges as soon as he or she is notified of acceptance by the first-choice college. A student applying under a single-choice plan may not apply to any colleges other than his or her first choice unless rejected by that institution. If a college follows either type of plan, applications (including financial aid applications) must be received by a specified date no later than November 15, and the college agrees to notify the applicant by a specified date no later than December 15.

FAF. *See* Financial Aid Form.

Family contribution. The total amount a student and his or her family are expected to pay toward college costs from their income and assets. The amount is derived from need analysis of the family's overall financial situation. Generally, students are eligible for financial aid equal to their financial need.

Family Financial Statement (FFS). A financial information collection document of the American College Testing Program's Financial Aid Services, used by parents of dependent students or by independent students to supply information about their income, assets, expenses, and liabilities. The ACT Program uses this information in estimating how much money a family is able to contribute toward a student's college expenses.

FFS. *See* Family Financial Statement.

Financial aid award letter. A notice from a college or other financial aid sponsor that tells a student how much aid is being offered. The award letter also usually explains how a student's financial need was determined, describes the contents of the financial aid package, and outlines any conditions attached to the award.

Financial Aid Form (FAF). A financial information collection document of the College Scholarship Service, used by parents of dependent students or by independent students to supply information about their income, assets, expenses, and liabilities. The CSS uses this information in estimating how much money a family is able to contribute toward a student's college expenses.

Financial aid package. The total financial aid award received by a student. It may be made up of a combination or "package" of aid that includes both gift aid and self-help. Many colleges try to meet a student's full financial need, but availability of funds, institutional aid policies, and the number of students needing assistance all influence the composition of a financial aid package.

Financial need. The amount by which a student's family contribution falls short of covering the student expense budget. Generally, students are eligible for financial aid equal to their financial need.

Gift aid. Student financial aid, such as scholarships and grants, that does not have to be repaid and that does not require a student's being employed.

Guaranteed Student Loan Program (GSL). A federal program that lets students borrow money for education expenses directly from banks and other lending institutions (sometimes the colleges themselves). Dependent students may borrow up to $2,500 an academic year and up to $7,500 for the total undergraduate program. Students from families with an adjusted gross income in excess of $30,000 per year must demonstrate need in order to qualify. The federal government pays the interest while the student is in college. Repayment terms are favorable and repayment need not begin until completion of the student's education. Pending legislation could affect this program

Independent student. *See* Self-supporting student.

National Direct Student Loan Program (NDSL). A federally funded program that provides loans of up to $3,000 for the first two undergraduate years and up to $6,000 for the total undergraduate program. Repayment need not begin until completion of the student's education or limited periods of service in the military, Peace Corps, ACTION, or comparable organizations. Repayment terms are favorable, and repayment may be partially or wholly waived for certain kinds of employment. Pending legislation could affect this program.

NDSL. *See* National Direct Student Loan Program.

Need analysis. The method for determining how much a family can reasonably be expected to pay toward a student's college education costs. Need analysis is based on the assumption that parents and students have the major responsibility for paying college costs to the extent that they are able. Formulas used in need analysis are updated annually to reflect changes in the economy, and are approved by the federal government and most colleges and other organizations that award financial aid.

Need analysis form. A form used by students to apply for financial aid. In many cases a need analysis form is the only form that students need to submit to be considered for all types of financial aid—institutional, state, and federal. The principal need analysis forms are the College Scholarship Service's Financial Aid Form and the American College Testing Program's Family Financial Statement.

Need analysis report. A report sent to colleges and programs as a result of a student's having submitted a need analysis form as a part of applying for financial aid. The need analysis report contains a preliminary estimate of the student's family contribution and financial need.

Open admission. The college admissions policy of admitting high school graduates and other adults generally without regard to conventional academic qualifications, such as high school subjects, high school grades, and admissions test scores. Virtually all applicants with high school diplomas or their equivalent are accepted.

Parents' contribution. The amount a student's parents are expected to pay toward college costs from their income and assets. The amount is derived from need analysis of the parents' overall financial situation. The parents' contribution and the student's contribution together constitute the total family contribution, which, subtracted from the student expense budget, equals financial need. Generally students are eligible for financial aid equal to their financial need.

Parent Loans for Undergraduate Students (PLUS). A federal program that lets parents of undergraduate dependent students borrow for their children's education expenses directly from banks and other lending institutions. Parents may borrow up to $3,000 an academic year and up to $15,000 for the total undergraduate program of each child. The federal government guarantees the loan against loss due to death, disability, or default, and subsidizes the interest rate. Repayment begins within 60 days after disbursement and may extend up to 10 years.

Pell Grant Program (formerly Basic Educational Opportunity Grant Program or BEOG). A federally sponsored and administered program that provides grants based on need to undergraduate students. Congress annually sets the dollar range of Pell Grants. In 1981-82 the grants ranged from $200 to $1,670 per year. Students apply using a need analysis form or a form submitted directly to the federal government. Pending legislation could affect this program.

PLUS. *See* Parent Loans for Undergraduate Students.

Preliminary Scholastic Aptitude Test/National Merit Scholarship Qualifying Test (PSAT/NMSQT). A shorter version of the College Board's Scholastic Aptitude Test administered by high schools each year in October. The PSAT/NMSQT aids high schools in the early guidance of students planning for college and serves as the qualifying test for scholarships awarded by the National Merit Scholarship Corporation.

Reserve Officers' Training Corps (ROTC). Reserve Officers' Training Corps programs conducted by certain colleges in cooperation with the United States Air Force, Army, and Navy. Local recruiting offices of the services themselves can supply detailed information about these programs, as can participating colleges.

ROTC. *See* Reserve Officers' Training Corps.

SAT. *See* Scholastic Aptitude Test.

Scholastic Aptitude Test (SAT). The College Board's test of verbal and mathematical reasoning abilities, given on specified dates throughout the year at test centers in the United States and other countries. It includes the Test of Standard Written English whose questions evaluate the ability to recognize standard written English, the language of most textbooks. Required of substantially all applicants by many colleges and sponsors of financial aid programs.

Self-help. Student financial aid, such as loans and jobs, that requires repayment or a student's being employed.

Self-supporting student. For financial aid purposes, a student who is independent of support from his or her parents. The definition by the federal government for students applying for aid in 1983-84 was undetermined at the time this book went to press, but the factors generally considered are: the student's age, length of time away from parents' home, status as a dependent for tax purposes, and the amount of support provided by the parents to the student.

SEOG. *See* Supplemental Educational Opportunity Grant Program.

SAR. *See* Student Aid Report.

Student Aid Report (SAR). A report prepared by the United States Department of Education and sent to students who have applied for federal student financial aid. A copy of the SAR must be submitted to the college that the student attends in order to certify his or her eligibility for federal assistance, such as Pell Grant Program, College Work-Study Program, National Direct Student Loan Program, and Supplemental Educational Opportunity Grant Program.

Student expense budget. The annual cost of attending college that is used in determining a student's financial need. Student expense budgets usually include tuition and fees, books and supplies, room and board, personal expenses, and transportation. Sometimes additional expenses are included for students with special education needs, students who have a handicap, or students who are married or have children.

Student's contribution. The amount students are expected to pay toward college costs from their income, assets, and benefits. The amount is derived from need analysis of the student's resources. The student's contribution and parents' contribution constitute the total family contribution, which, subtracted from the student expense budget, equals financial need. Generally, students are eligible for financial aid equal to their financial need.

Summer savings. The amount from a student's summer employment that a college assumes the student can apply toward college costs. Freshman students are usually expected to have $700 in summer savings.

Supplemental Educational Opportunity Grant Program (SEOG). A federal program administered by colleges to provide need-based aid to undergraduate students. Grants range from $200 to $2,000 a year. Pending legislation could affect this program.

Worksheets and tables

Now that you've followed Andrea, Beth, and Carlos through the financial aid application process according to the uniform methodology, here are worksheets for you to complete for your own need analysis estimate. These are the same worksheets that were completed for Andrea, Beth, and Carlos in Chapters 1, 2, and 4. They are: Worksheet 1, Estimating student expenses; Worksheet 2, Estimating parents' contribution; Worksheet 3, Student's expected contribution; Worksheet 4, Total family contribution; Worksheet 5, Estimating financial need; and Worksheet 6, Financial aid awards.

Worksheet 1: Estimating student expenses	*College A*	*College B*	*College C*
1. Tuition and fees	$	$	$
2. Books and supplies			
3. Student's room			
4. Student's board/meals*			
5. Personal (clothing, laundry, recreation, medical)			
6. Transportation**			
7. Other (such as costs of child care, extra expenses because of handicap)			
A. Total budget (Add 1-7)	$	$	$

*You will want to consider these expenses to your family if you live at home.

** If you are planning to live on campus, estimate the costs of the round trips you will have to make to your home. Colleges usually estimate a students makes two or three round trips during the year. Students living at home should figure the costs of daily transportation to the college.

Worksheet 2:
Estimating parents' contribution

1982 income:	
1. Father's yearly wages, salaries, tips, and other compensation	$
2. Mother's yearly wages, salaries, tips, and other compensation	
3. All other income of mother and father (dividends, interest, social security, pensions, welfare, etc.)	
B. Total income (Add 1, 2, 3)	
Expenses:	
4. Adjustments to income such as employee business expenses, disability income exclusion (the amount allowed on U.S. income tax return)	
5. U.S. income tax parents expect to pay on their 1982 income (not amount withheld from paycheck)	
6. Social Security (FICA) tax (6.7% times each salary to a maximum of $2,171)	
7. State and other taxes (insert 9% of B)	
8. Medical and dental expenses (not covered by insurance) in excess of 3% of B	
9. Elementary and secondary school tuition paid for other dependents in excess of 4% of B	
10. Employment allowance. If a 2-parent family and both parents work, allow 30% of lower salary to a maximum of $1,900; if 1-parent family, allow 30% of salary to a maximum of $1,900. No allowance for a 2-parent family in which only 1 parent works.	
11. Standard maintenance allowance (See Table for 11)	
C. Total allowances against income (Add 4, 5, 6, 7, 8, 9, 10, 11)	
D. Available income (Subtract C from B)	
Assets:	
12. Home equity (total estimated value of your home on the current market minus any unpaid balance on your mortgage)	
13. Other real estate equity (value minus unpaid balance on mortgage)	
14. Business or farm (Figure total value minus indebtedness and then take percentage shown in table.) If your family is only part owner of the farm or business, list only your share of the net value.	
15. Cash, savings, and checking accounts	
16. Other investments (current net value)	
E. Total assets (Add 12, 13, 14, 15, 16)	
Deductions:	
F. Asset protection allowance (See Table for F)	
G. Remaining assets (Subtract F from E)	
H. Income supplement from assets (Multiply G by 12% if G is $0 or more. If G is negative, use conversion percentage from Table for H.)	
I. Adjusted available income (Add D and H)	
J. Parents' expected contribution (Multiply I by taxation rate amount given in Table for J)	
K. Parents' expected contribution if more than one family member is in college (Divide J by number of family members in college at least half time)	

Table for 11. Standard maintenance allowance

Family size (including applicant)	*Number of family members in college*			
	1	*2*	*3*	*4*
2	$ 7,360	$ 6,100		
3	9,180	7,920	$ 6,660	
4	11,330	10,070	8,810	$ 7,550
5	13,370	12,110	10,850	9,580
6	15,640	14,380	13,120	11,860
Each additional	+ 1,760	+ 1,760	+ 1,760	+ 1,760

Table for 14. Adjustments for business and farm

Net worth	*Adjustment rate*
Less than $1	$0
$ 1 – 55,000	40% of NW
$ 55,001 – 165,000	$ 22,000 plus 50% of NW over $55,000
$165,001 – 275,000	$ 77,000 plus 60% of NW over $165,000
$275,001 or more	$143,000 plus 100% of NW over $275,000

Table for F. Asset protection allowance

Age	*Two-parent family*	*One-parent family*
44 or less	$26,000	$20,700
45–49	29,700	23,300
50–54	34,700	26,600
60–64	49,200	35,300
65 or more	55,400	38,800

Table for H. Income supplement from assets (To be used when G is a negative number. When G is $0 or more, use 12%.)

If available income (D) is:	*Use*
$ 1,250 or less	6%
$ 1,251 – 3,750	5
$ 3,751 – 6,250	4
$ 6,251 – 8,750	3
$ 8,751 – 11,250	2
$11,251 – 13,750	1
$13,751 or more	0

Table for J. Parents' expected contribution

Adjusted available income (AAI)	*Total parents' contribution*
–$3,410 or less	–$750
– 3,409 to 6,600	22% of AAI
$ 6,601 to 8,250	$1,452 + 25% of AAI over $ 6,600
$ 8,251 to 9,990	1,865 + 29% of AAI over $ 8,250
$ 9,901 to 11,550	2,344 + 34% of AAI over $ 9,900
$11,551 to 13,200	2,905 + 40% of AAI over $11,550
$13,201 or more	3,565 + 47% of AAI over $13,200

Worksheet 3: Student's expected contribution

17. Savings and other assets such as stocks and bonds multiplied by 35%	$
18. Educational benefits for student such as veterans benefits	
19. Savings from summer earnings (for the summer before freshman year, allow $700; for subsequent years, $900)*	
20. Other gifts you have already received	
L. Student resources (Add 17, 18, 19, 20)	$

*If you are unable to find a summer job or to save the amount suggested, you should report this to the college.

Worksheet 4: Total family contribution

J. Parents' expected contribution (Use Figure for K instead of J if there is more than one family member in college)	$
L. Student's expected contribution from resources	
M. Total family contribution (Add J and L)	$

Worksheet 5: Estimating financial need

	College A	*College B*	*College C*
A. Total budget	$	$	$
M. Total family contribution			
N. Demonstrated financial need (Subtract M from A)	$	$	$

Worksheet 6: Financial aid awards	*College A*	*College B*	*College C*
A. Total student budget	$	$	$
M. Total family contribution			
N. Demonstrated financial need			
1. Pell Grant			
2. State scholarship			
3. Institutional grant			
4. College Work-Study			
5. National Direct Student Loan			
6. Supplemental Educational Opportunity Grant			
7. Guaranteed Student Loan			
8. Private schloarships			
Total resources for college	$	$	$

Note: The figures shown are estimates of parents' contributions derived from the uniform methodology for 1983-84, assuming the older parent, age 45, employed; the other parent not employed; income only from employment; no unusual circumstances; standard deductions on U.S. income tax; and one undergraduate child in college.

Appendix I. Student Expenses at Postsecondary Institutions

Introduction

This appendix provides detailed information about expenses at over 3,200 colleges, universities, and proprietary schools. The data were collected from institutions on questionnaires sent to colleges and universities in November 1981 and to proprietary schools in January 1982. The listings include all institutions submitting data by May 15, 1982. Institutions were asked to give the expense figures for the academic year beginning in the fall of 1982. If the institution reported that these charges were not yet available but provided expenses for 1981-82 instead, these figures are given with an asterisk next to the name of the institution and a footnote to this effect.

If you are estimating your expenses for a year or two from now, you could raise the figures by at least 10 percent per year to allow for future increases (see Chapter 1).

Student expense budget information

In an effort to collect comparable budget information, the College Board asked institutions to provide data for specifically budgeted items. The figures supplied under each column heading, therefore, should represent the following.

Column 1. Tuition and fees

This figure indicates the annual tuition and general fees an institution charges most first-year, full-time students. Colleges were asked to report costs based on a nine-month academic year of 30 semester hours or 45 quarter hours.

Column 2. Books and supplies

This figure is the average cost of books and supplies for the normal course load for full-time students.

Column 3. Room and board

For resident students, room and board includes the nine-month charges for living and eating in facilities operated by or for the institution. For commuter students, the figures in parentheses include typical food and other at-home miscellaneous expenses for nine months but exclude the cost of room.

Two figures may be shown in each of the columns 3, 4, 5, and 6. Figures without parentheses are for resident students; figures in parentheses are for commuter students.

Column 4. Transportation

For resident students, the figures include typical costs for two round trips from home. For commuter students, the figures in parentheses reflect the typical cost of regular transportation to and from the institution during the nine-month period.

Column 5. Other expenses

This column shows typical personal or miscellaneous expenses, such as clothing, laundry, entertainment, incidental meals, medical insurance, and furnishings.

Column 6. Total student budget

The figures in this column show the total of the entries for columns 1 through 5. Generally, each budget total includes tuition and fees, books and supplies, room and board, transportation, and other expenses. However, if an institution did not supply figures for all five categories of expenses (tuition and fees, books and supplies) and at least one of the next three categories. When a

66

figure appears in the total budget column *only*, this means that the college charges a comprehensive fee that combines the costs of tuition, fees, room and board. Other costs reported by the college are also included in the total.

Column 7.
Additional out-of-state/out-of-district tuition

This item represents only the *additional* charge made to students who do not meet state or district residency requirements. The figure to the left of the diagonal mark shows additional out-of-state charges; the figure to the right shows additional out-of-district charges. These charges added to the tuition and fees in column 1 will give you the total tuition and fees for out-of-state and out-of-district students.

Need analysis requirements

The last columns provide information about the need analysis documents required for applying for financial aid and the deadlines by which they must be filed.

Column 8. Need analysis documents

The following abbreviations are used for the documents institutions may require.

FAF—the Financial Aid Form of the College Scholarship Service.

FFS—the Family Financial Statement of the American College Testing Program.

SAAC—the Student Aid Application for California. (Because SAAC is comparable to FAF, California residents should note that SAAC is generally accepted in place of FAF.)

PHEAA—the application form of the Pennsylvania Higher Education Assistance Agency.

AFSA—the Application for Federal Student Assistance. (May be used to apply for Pell Grants, or students may check off the Pell Grant box on an FAF, FFS, SAAC, or PHEAA document.)

CUNY Aid Form—the aid application form for the City University of New York system.

CFS—the Confidential Statement of the Financial Analysis Service.

The following information gives some guidelines for interpreting document requirements.

- Institutions were asked to list only general requirements for need analysis documents. Some colleges will accept a document not listed if you submit it.
- When more than one document is listed, this means that either document is acceptable. If the institution prefers one over the other, this is indicated by an asterisk (*) after the preferred document.
- The Application for Federal Student Assistance (AFSA) is listed only for those institutions which require no other need analysis document. Students who file an FAF, FFS, SAAC, or PHEAA document can apply for a Pell Grant by checking off the appropriate box on their form.
- In general, state-specific forms are not listed unless they are the *only* need analysis document required by an institution. Most colleges require you to apply for your state scholarship or grant program, but typically they have additional need analysis requirements as well.
- The IRS Form 1040 is listed only for those institutions for which the federal income tax return is sufficient for need analysis. Many colleges require your parents (or you) to submit a copy of the tax return in addition to the need analysis document listed.

Column 9. Financial aid priority and/or closing date

The last column gives the priority and closing dates for submitting financial aid applications to the college. The *priority* deadline is the date by which the college prefers that you submit your aid application; the *closing* deadline is the final date by which the college will accept your application. Institutions continue to review applications after the priority date, but often the remaining funds are quite limited. Therefore, it is best to meet the college's priority deadline when applying for aid. If no date is given, check with the institution to find out what the deadlines are.

If the institutions to which you apply require a need analysis form, you should send your form to the processing agency four to six weeks *before* your earliest college deadline *(but not before January 1)* in order to allow time for the completed analysis to reach the colleges by the deadlines listed here.

Institution	*Tuition and fees*	*Books and supplies*	*Room and board*		*Trans-portation*		*Other expenses*		*Total student budget*		*Additional out-of-state/ district tuition*	*Need analysis document required*	*Financial aid priority and/or closing date*

Appendix 2. Institutions listed alphabetically

Abilene Christian University, Abilene, TX 79699
Abington Memorial Hospital School of Nursing, Abington, PA 19001
Abraham Baldwin Agricultural College, Tifton, GA 31793
Academy for Business Careers, New Haven, CT 06510
Academy International: Santa Barbara, Santa Barbara, CA 93101
Academy of Accountancy, Minneapolis, MN 55401
Academy of Art College, San Francisco, CA 94102
Academy of Communicative Art, Cincinnati, OH 45206
Academy of Hair Design, Salina, KS 67401
Academy of the New Church, Bryn Athyn, PA 19009
Academy of Scientific Hair Design: Gretna, Gretna, LA 70053
Academy Pacific: San Bernardino, San Bernardino, CA 92401
Acme Institute of Technology: Hales Corners, Hales Corners, WI 53130
Acme Institute of Technology: Manitowoc, Manitowoc, WI 54220
Adams State College, Alamosa, CO 81102
Adelphi University, Garden City, NY 11530
Adirondack Community College, Glens Falls, NY 12801
Adrian College, Adrian, MI 49221
Advanced Training Center, Tonawanda, NY 14150
Aero Technicians, Rexburg, ID 83440
Agnes Scott College, Decatur, GA 30030
Aiken Technical College, Aiken, SC 29801
Aims Community College, Greeley, CO 80631
AIRCO Technical Institute, New Orleans, LA 70126
Airco Technical Institute, Philadelphia, PA 19139
Alabama Agricultural and Mechanical University, Normal, AL 35762
Alabama Christian College, Montgomery, AL 36193
Alabama State University, Montgomery, AL 36195
Alameda Beauty College, Alameda, CA 94501
Alamogordo Beauty College, Alamogordo, NM 88310
Alaska Bible College, Glennallen, AK 99588
Alaska Pacific University, Anchorage, AK 99504
Albany Business College, Albany, NY 12210
Albany College of Pharmacy, Albany, NY 12208
Albany Medical Center School of Nursing, Albany, NY 12208
Albert Einstein Medical Center School of Nursing, Philadelphia, PA 19141
Albert Lea Area Vocational-Technical Institute, Albert Lea, MN 56007
Albertus Magnus College, New Haven, CT 06511
Albion College, Albion, MI 49224
Albright College, Reading, PA 19603
Albuquerque Technical-Vocational Institute, Albuquerque, NM 87106
Alcorn State University, Lorman, MS 39096
Alderson-Broaddus College, Philippi, WV 26416
Alexandria Hospital School of Nursing, Alexandria, VA 22304
Alfred University, Alfred, NY 14802
Alhambra Beauty College, Alhambra, CA 91801
Alice B. Skinner Secretarial School, Garden City, NY 11530
Alice Lloyd College, Pippa Passes, KY 41844
Allan Hancock College, Santa Maria, CA 93454
Allegany Community College, Cumberland, MD 21502
Allegheny College, Meadville, PA 16335
Allen Memorial Hospital Lutheran School of Nursing, Waterloo, IA 50703
Allen School, Jamaica, NY 11432
Allen University, Columbia, SC 29204
Allentown Business School, Allentown, PA 18101
Allentown College of St. Francis de Sales, Center Valley, PA 18034
Allentown Hospital School of Nursing, Allentown, PA 18102
Alliance College, Cambridge Springs, PA 16403
Alliance School of Practical Nursing, Alliance, NE 69301
Alma College, Alma, MI 48801
Alpena Community College, Alpena, MI 49707
Altoona Hospital School of Nursing, Altoona, PA 16603
Alvernia College, Reading, PA 19607
Alverno College, Milwaukee, WI 53215
Alvin Community College, Alvin, TX 77511
Amarillo College, Amarillo, TX 79178
Ambassador College, Pasadena, CA 91123
Amber University, Garland, TX 75041
American Academy of Art, Chicago, IL 60604
American Academy of Dramatic Arts, New York, NY 10016
American Academy of Dramatic Arts: West, Pasadena, CA 91107
American Baptist College of ABT Seminary, Nashville, TN 37207
American Beauty College, Gulfport, MS 39501
American Business and Fashion Institute, Charlotte, NC 28209
American College in Paris, Paris, France
American College of Puerto Rico, Bayamon, PR 00619
American College of Switzerland, Leysin, Switzerland
American Conservatory of Music, Chicago, IL 60603
American Conservatory Theatre, San Francisco, CA 94102
American Institute of Business, Des Moines, IA 50321
American Institute of Commerce, Bettendorf, IA 52722
American Institute of Drafting, Philadelphia, PA 19124
American International College, Springfield, MA 01109
American River College, Sacramento, CA 95841
American Samoa Community College, Pago Pago, AS 96799
American Technological University, Killeen, TX 76541
American University, Washington, DC 20016
Amherst College, Amherst, MA 01002
Ancilla College, Donaldson, IN 46513
Anderson College, Anderson, IN 46012
Anderson College, Anderson, SC 29621
Andon College, San Jose, CA 95128
Andover College, Portland, ME 04101
Andrews University, Berrien Springs, MI 49104
Angelina College, Lufkin, TX 75901
Angelo State University, San Angelo, TX 76901
Anna Maria College, Paxton, MA 01612
Anne Arundel Community College, Arnold, MD 21012
Anne's Beauty College, Norfolk, VA 23504
Anoka-Ramsey Community College, Coon Rapids, MN 55433
Anson Technical College, Ansonville, NC 28007
Antelope Valley College, Lancaster, CA 93534
Antillian College, Mayaguez, PR 00708
Antioch College, Yellow Springs, OH 45387
Antonelli School of Photography, Philadelphia, PA 19105
Apollo College of Medical and Dental Careers, Phoenix, AZ 85021
Appalachian Bible College, Bradley, WV 25818
Appalachian State University, Boone, NC 28608
Aquinas College, Grand Rapids, MI 49506
Aquinas Junior College at Milton, Milton, MA 02186
Aquinas Junior College at Newton, Newton, MA 02158
Arapahoe Community College, Littleton, CO 80120
Archbishop Bergan Mercy Hospital Radiologic Technology Program, Omaha, NE 68124
Arizona Automotive Institute, Glendale, AZ 85301
Arizona College of the Bible, Phoenix, AZ 85021
Arizona State University, Tempe, AZ 85281
Arizona Western College, Yuma, AZ 85364
Arkansas Baptist College, Little Rock, AR 72205
Arkansas College, Batesville, AR 72501
Arkansas Continental Beauty School, Fort Smith, AR 72901
Arkansas State University, Jonesboro, AR 72467

Arkansas State University: Beebe Branch, Beebe, AR 72012
Arkansas Tech University, Russellville, AR 72801
Armstrong College, Berkeley, CA 94704
Armstrong County Memorial Hospital School of Radiologic Technology, Kittanning, PA 16201
Armstrong State College, Savannah, GA 31406
Arrowhead Community College: Hibbing Campus, Hibbing, MN 55746
Arrowhead Community College: Itasca Campus, Grand Rapids, MN 55744
Arrowhead Community College: Mesabi Campus, Virginia, MN 55792
Arrowhead Community College: Rainy River Campus, International Falls, MN 56649
Arrowhead Community College: Vermilion Campus, Ely, MN 55731
Art Academy of Cincinnati, Cincinnati, OH 45202
Art Center College of Design, Pasadena, CA 91103
Art Institute of Atlanta, Atlanta, GA 30326
Art Institute of Pittsburgh, Pittsburgh, PA 15222
Artesia Christian College, Artesia, NM 88210
Arthur Angelo School of Hair Design, Providence, RI 02903
Asbury College, Wilmore, KY 40390
Ashland College, Ashland, OH 44805
Ashland Community College, Ashland, KY 41101
Ashland State Vocational-Technical School, Ashland, KY 41101
Ashmore College, Thomasville, NC 27360
Asnuntuck Community College, Enfield, CT 06082
Associated Technical Institute, Woburn, MA 01801
Assumption College, Worcester, MA 01609
Athens Area Vocational-Technical School, Athens, GA 30610
Athens State College, Athens, AL 35611
Atlanta Area Tech, Atlanta, GA 30310
Atlanta Christian College, East Point, GA 30344
Atlanta College of Art, Atlanta, GA 30309
Atlanta Junior College, Atlanta, GA 30310
Atlanta School of Fashion and Design, Atlanta, GA 30309
Atlantic Christian College, Wilson, NC 27893
Atlantic Community College, Mays Landing, NJ 08330
Atlantic Union College, South Lancaster, MA 01561
Atmore State Technical College, Atmore, AL 36504
Auburn University, Auburn, AL 36849
Audie and Joice School of Hair Design, San Antonio, TX 78223
Augsburg College, Minneapolis, MN 55454
Augusta Area Vocational-Technical School, Augusta, GA 30906
Augusta College, Augusta, GA 30910
Augustana College, Rock Island, IL 61201
Augustana College, Sioux Falls, SD 57197
Aultman Hospital School of Nursing, Canton, OH 44710
Aurora College, Aurora, IL 60507
Aurora Public Schools Technical Center, Aurora, CO 80011
Austin Beauty School, Albany, NY 12206
Austin College, Sherman, TX 75090
Austin Community College, Austin, MN 55912
Austin Community College, Austin, TX 78768
Austin Peay State University, Clarksville, TN 37040
Averett College, Danville, VA 24541
Avila College, Kansas City, MO 64145
Award Beauty School, Hagerstown, MD 21740
Azusa Pacific University, Azusa, CA 91702
Babson College, Wellesley, MA 02157
Bacone College, Muskogee, OK 74401
Bahner Beauty College, Fremont, NE 68025
Bainbridge Junior College, Bainbridge, GA 31717
Baker Junior College of Business, Flint, MI 48507
Baker University, Baldwin City, KS 66006
Bakersfield College, Bakersfield, CA 93305
Baldwin Beauty School, Houston, TX 77017
Baldwin Beauty School: Long Point, Houston, TX 77055
Baldwin-Wallace College, Berea, OH 44017

Appendix 3. Sources of information about state grant programs and the Guaranteed Student Loan Program

State scholarships and grants

The major state scholarship and grant programs are described in the following list. Included in the description of each program are eligibility requirements, average awards, and the address of the administrative agency. Unless otherwise indicated, funds are available to residents with financial need who are enrolled for full-time study at eligible postsecondary institutions in their state of residence.

Alabama

Alabama Student Assistance Program—Variable grants at in-state postsecondary institutions

Alabama Student Grant Program—Grants of up to $600 at eligible private nonprofit colleges and universities. Does not require financial need.

For more information, contact the Alabama Commission on Higher Education, One Court Square, Suite 221, Montgomery, AL 36197.

Alaska

Alaska Student Incentive Grant Program—Grants of up to $1,500 for use at eligible in-state and out-of-state postsecondary institutions.

Alaska State Student Loan Program—Loans of up to $6,000 per year for undergraduate students and $7,000 per year for graduate students who are Alaska residents and otherwise eligible for full-time study at in-state and out-of-state accredited institutions.

For more information, contact the Alaska Commission on Postsecondary Education, Pouch FP, Juneau, AK 99801.

Arizona

Arizona State Student Incentive Grant Program—Grants of $100 to $2,000 at accredited in-state postsecondary institutions for needy Arizona residents.

For more information, contact the financial aid office at the institution you wish to attend.

Arkansas

Arkansas State Scholarship Program—Grants of $100 to $300 at colleges and universities. Based on academic ability and financial need.

For more information, contact the Department of Higher Education, 1301 West Seventh Street, Little Rock, AR 72201.

California

Three state student aid programs: Grant A—Grants of $600 to $3,400 at independent colleges, $300 to full fees (about $800) at the University of California, and about $250 at the California State University and Colleges. Grant B—Subsistence grants of $500 to $1,100 and in some cases tuition. Grant C—Grants of up to $2,000 for tuition plus $500 for training-related expenses at vocational and technical schools.

Bilingual Teacher Grants—Grants of up to $3,600 per year for tuition, fees, books, and living expenses.

California Guaranteed Student Loans—Loans made by private lending institutions of up to $2,500 per year for undergraduates and up to $5,000 per year for graduates.

California Loans to Assist Students—Loans made by private lending institutions of up to $3,000 to parents of dependent undergraduate students and to independent undergraduate students, and graduate students.

For more information, contact the California Student Aid Commission, 1410 Fifth Street, Sacramento, CA 95814.

Colorado

Student Grant—Grants of up to $1,000 (averaging $600) at in-state public postsecondary institutions. State residents only. Students must show financial need to be eligible.

Scholarship Program for Undergraduate Students—Scholarships of up to amount of resident tuition and mandatory student fees at in-state institutions. State residents only.

For more information, contact the financial aid office at the institution you wish to attend.

Connecticut

State Scholastic Achievement Grant Program—Grants of up to $1,500 may be taken to Connecticut colleges. Grants of up to $500 may be taken to colleges located in reciprocal states. Based on academic performance and financial need.

For more information, contact the Board of Higher Education, 61 Woodland Street, Hartford, CT 06105.

Delaware

Delaware Postsecondary Scholarship Fund—Grants of $200 to $1,000 at approved Delaware, Maryland, and Pennsylvania Colleges and at colleges outside Delaware if the program of study is not offered at Delaware tax-supported colleges.

For more information, contact the Delaware Postsecondary Education Commission, 820 French Street, Fourth Floor, Wilmington, DE 19801.

District of Columbia

District of Columbia Student Incentive Grant Program—Grants of up to $1,500.

For more information, contact the Office of State Education Affairs, 614 H Street, NW, Room 817, Washington, DC 20001.

Florida

Florida Student Assistance Grant Program—Grants of $200 to $1,200 at eligible Florida colleges.

State Tuition Voucher Fund—Grants of up to $750, depending on tuition, at nonprofit colleges and private universities which are not pervasively sectarian. Not for the study of theology or divinity.

Florida Academic Scholars Fund—Scholarships up to $750 for attendance at eligible Florida colleges and universities. Student must have graduated from high school with a 3.5 or higher GPA on a 4.0 scale and have a combined score of 1200 or higher on the SAT or the equivalent scale on the ACT or be recognized as a scholar or finalist in the National Merit Scholarship or Achievement Program.

For more information, contact the Florida Student Financial Assistance Commission, Knott Building, Tallahassee, FL 32301.

Georgia

Georgia Student Incentive Grant Program—Grants of $150 to $450 at nonprofit postsecondary institutions.

Georgia Tuition Equalization Grant Program—Grants of $700 at private colleges. Does not require financial need.

For more information, contact the Georgia Student Finance Authority, 2082 East Exchange Place, Suite 200, Tucker, GA 30084.

Hawaii

Two programs exist which provide for tuition expenses at campuses of the University of Hawaii: The State Scholarship Program, and Tuition Waivers (awarded for special needs or abilities).

Hawaii Student Incentive Grant Program—Grants covering tuition expenses at nonprofit postsecondary institutions.

For more information, contact the Office of Vice President for Academic Affairs, University of Hawaii, 2444 Dole Street, Honolulu, HI 96822.

Idaho

Scholarship Program—Grants of up to $1,500 per year at nonprofit postsecondary institutions. Based on academic ability.

State Student Incentive Grant Program—Grants of up to $2,000 to residents and nonresidents.

For more information, contact the Office of the State Board of Education, 650 West State Street, Boise, ID 83720.

Illinois

Academic Scholarship Program—Grants of up to $1,000 at approved colleges and universities. Based on academic ability. Program has not been funded for the past two fiscal years.

General Assembly Scholarships—Waivers of tuition and fees at public postsecondary institutions. Selection by general assembly members from residents of their districts.

For more information on this program contact your district legislator directly.

Illinois Monetary Award Program—Grants of up to $1,950 at nonprofit postsecondary institutions for half-time (6 hours minimum) and full-time study.

For more information, contact the Illinois State Scholarship Commission, 525 West Jefferson, Suite 111, Springfield, IL 62702.

Indiana

Higher Education Award—Awards for tuition and fees charged at highest cost state university.

Freedom of Choice Grant Program—Additional assistance of up to $1,450 at private nonprofit postsecondary institutions.

For more information, contact the State Student Assistance Commission of Indiana, 219 North Senate Avenue, Indianapolis, IN 46202.

Iowa

Iowa Tuition Grant Program—Grants of up to $1,700 (averaging $1,540) at private institutions (including nursing and business schools) for half-time and full-time study.

Iowa Vocational-Technical Tuition Grant Program—Grants of up to $400 (averaging $315) at two-year public vocational and technical institutions.

State of Iowa Scholarship Program—Grants of $200 to $600 (averaging $560). Based on academic ability and financial need.

For more information, contact the Iowa College Aid Commission, 210 Jewett Building, Ninth and Grand Avenue, Des Moines, IA 50309.

Kansas

Kansas Tuition Grant Program—Grants of up to $1,200 (averaging $950) at private, nonprofit postsecondary institutions.

State Scholarship Program—Stipends of up to $500. Based on academic ability and financial need.

For more information, contact the Board of Regents, 1100 Merchants National Bank, Topeka, KS 66612.

Kentucky

Kentucky Higher Education Assistance Authority Grant Program—Grants of $100 to $300. Supplementary grants of up to $850 are provided at the 20 eligible private postsecondary institutions.

For more information, contact KHEAA Grants, West Frankfort Office Complex, 1050 US 127 South, Frankfort, KY 40601.

Louisiana

Louisiana Academic Scholarship Program—Grants of $1,250 at public colleges and universities. Based on academic ability.

State Student Incentive Grant Program—Grants of $200 to $1,500 at eligible in-state postsecondary institutions.

For more information, contact the institution you wish to attend.

Maine

State Student Aid Program—Grants of up to half of unmet need or $1,500, whichever is less, at Maine and Massachusetts colleges.

For more information, contact the Division of Higher Education Services, State Department of Educational and Cultural Services, Augusta, ME 04333.

Maryland

General State Scholarship Program—Grants of up to $1,500 (averaging $650) at nonprofit postsecondary institutions. Undergraduate awards based on need.

House of Delegates Grant Program—Grants to assist with tuition and fees at public and private postsecondary institutions for half-time and full-time study. Does not require financial need.

Senatorial Scholarship Program—Grants of $200 to $1,500 at public postsecondary institutions for half-time and full-time study. Based on academic ability and financial need.

Distinguished Scholar Program—$800 undergraduate annual awards. Based on merit and need not required.

This book was designed by Freeman Craw.

The introductory pages were composed in Times Roman by Pulsar Graphics, Inc., Freehold, New Jersey, and the body of the text was composed in Video Times Roman and generated from a data base prepared by Thomas National, Inc., New York, New York.

Printing and binding were done at the Willard, Ohio, and Crawfordsville, Indiana, plants of R. R. Donnelley & Sons Company, Chicago, Illinois.

Photographs: Monkmeyer Press (pp. 4, 19, 23, 33, 38), Hugh Rogers (5, 33).

Need money for college?

Find out how you may be eligible for financial aid in The College Cost Book, 1982-83.

Third Edition
College Scholarship Service of the College Board

> "*...an excellent guide.*"
> —People Magazine

This step-by-step guide helps students and their families plan for meeting today's sharply rising college costs. Using simple charts and worksheets, the *Cost Book*

- discusses recent changes in federal aid programs and eligibility requirements
- explains how to estimate college costs and financial need
- tells what types of aid are currently available to meet that need
- shows how to apply to federal, state, local, and private agencies that administer financial aid
- lists 1982-83 costs at more than 3,200 two- and four-year public, private, and proprietary institutions
- helps families get the most out of their own financial resources and aids students in managing money while at college

In addition, the *Cost Book* contains sample financial aid forms, a bibliography of aid sources, a glossary of educational terms, and a financial aid application checklist.

Other books to help you plan for college

The College Handbook, 1982-83

Twentieth Edition. Maureen Matheson, editor

The all-new edition of the classic guide to colleges provides high school students, transfer students, adult learners, and all who counsel them with the basic facts on ▪ enrollment ▪ major fields of study ▪ freshman and transfer admissions requirements and procedures ▪ annual expenses ▪ available financial aid and how to apply for it ▪ student activities and athletics. It contains more than 2,500 full descriptions provided by the institutions themselves and 500 briefer ones based on information from the National Center for Education Statistics . . . $12.95

Index of Majors, 1982-83

Fifth Edition

An easy-to-use reference for both students and counselors, this completely revised, cross-referenced edition lists 385 major fields of study and the colleges, state by state, that currently offer them. Based on information provided by 2,500 two- and four-year colleges, the *Index* contains separate sections for major programs leading to associate and to bachelor's and graduate degrees and lists colleges that have religious affiliations, special academic programs, and special admissions procedures . . . $10.95

Both books are available from local bookstores or by sending a check to: College Board Publications,
